2. Parental Consent Form

--This was already completed in your junior year. Do not do it again. Review language in red.

To the Parent or Guardian:

As a parent/guardian of a student at Twin Falls School District, I am aware that my son/daughter must pass all four components of the Senior Project to graduate: the project proposal, the project, the research paper and the presentation.

I/We fully understand that the Senior Project selection decision is made independently of the staff and administration of the high school, but is subject to Junior Board Committee approval. It is assumed that costs of related activities will be minimal; however, the decision concerning expenditures is up to the student and his/her parent/guardian. All costs of the project will be assumed by the student/parent.

It is assumed that the Senior Project will be of an educational nature and will not involve unusual risk. If the Senior Project Advisor feels that there is unwarranted risk, parents will be notified before approval is given and may be asked to assume liability.

I/We understand that if my/our student does not complete any portion of the Senior Project he/she will not participate in graduation ceremonies until completion. If students cannot make these deadlines due to extenuating circumstances, he/she may appeal the deadlines to the high school principal prior to the due dates. The diploma will be held until successful completion of the Senior Project.

Finally, both my daughter/son and I understand that falsifying or plagiarizing any aspect of the Research Paper or Project will result in failure of the Senior Research Project. Failure means that that the student will not participate in graduation ceremonies and the diploma will be held until the entire component of the project that was falsified or plagiarized was redone from scratch.

Statement of Participation: By signing this Parental Consent form you acknowledge that you understand your responsibilities regarding the Senior Project.
