

# PROJECT JOURNAL

## The Physical Project Journal

- ❖ All students will be expected to keep a project journal which will be included in the Senior Project Portfolio.
- ❖ A journal entry is required for EACH time the student works on the project and follow the journal guidelines
  - Each entry will begin with the date
  - Each entry will include the session time and number of hours
  - Each entry will include a brief description of what was worked on
- ❖ Journal format is chosen by the student, with the guidance of the advisory teacher.
- ❖ Journal must be accessible to the student at all times
  - It is an on-going document
  - It is evidence that learning and hours worked are taking place
- ❖ Journal must have signatures
  - At least five signatures from the Mentor throughout the process
  - At least five signatures from the Parent throughout the process
- ❖ Journal is very important and will be evaluated at the end of the project

#### Log:

December 10, 20XX 5:00pm-7:00pm

Total time: **2 hours**

- My mentor and I went to Hancock Fabric to pick out my material. We also designed the pattern we would make.
- I learned that it is hard to match and choose material that goes together and will fit your chosen pattern. I had first thought I would do an Americana theme, but when it came time to pick my fabric I couldn't find anything I liked. I found some material I really liked, so I chose three other fabrics that matched.
