

Twin Falls School District Residential Construction Program

Build Your Own Backyard Shed!  iCreatables.com

TFSD Building Construction Program

We will be building 6-8 sheds this semester, which we will be selling to help with our program needs. Right now the shed sizes will be 6'x8' and 8'x10' with 7' tall walls. They will be framed and sided with primed T1-11 siding. There will be no paint on the outside and not finished on the inside. We are up to the challenge if there is a specific size you need, please talk to Mr. Hoge. For questions, pricing, and to put your order in please contact Cameron Hoge at hogeca@tfsd.org or 208-731-7909. Please spread the word to neighbors, family, and friends.

Thank you!
