

# Football

**Program goals:** Welcome to the inaugural season of South Hills Middle School football! As we begin everything new we have the unique opportunity to set into place the expectations, culture, and way of doing things. As coaches we want to help establish the culture of excellence, pride, teamwork and most importantly having fun.

We invite 7th and 8th graders who are interested in playing football to contact us to gain more information. The overall focus of the program is to promote academic excellence. We want the athletes to be successful in the classroom. On the field we will focus on fundamentals and prepare players to be successful for the high school level. We use a scaffolding approach to building skills. As coaches safety is our first priority.
