I was waiting to hear back from CIAC and Denver FSDO before sending this out. Just heard back a few minutes ago. Looks like reporting was way down this weekend in Colorado and Nebraska. Kansas had a few reports but nothing like what we have seen the past few weeks. I have not received one call since Friday evening. Over the weekend NIAC reported a few single sightings and one swarm of 25 reported by a citizen in Wahoo, NE, LE was unable to validate the sighting. So far the sheriffs I have contacted have reported no activity. They think the people have gotten tired of reporting. I think the activity has moved on or has stopped.

Denver FSDO ran an OP over the weekend and did not observe activity, only passing GA and commercial aircraft.

CIAC ran an OP as well with nothing coming out of it but wasted gas. They have suspended OP for now.

R,
Bam
