The Visionaire Group has documented this Privacy Policy in order to provide the details of our practices with respect to collecting, using and disclosing your information when you use the Services.

We suggest that you to read our Privacy Policy with care so that you can make informed decisions. By using the Services, you agree to the terms of this Privacy Policy and your continued use of the Services constitutes your ongoing agreement to the Privacy Policy.

1. TYPE OF INFORMATION COLLECTED

We may collect and store two types of data and information from our users.

The first type of information is un-identified and non-identifiable information about you, which is either available or collected via your use of the Services ("Non-personal Information"). We have no knowledge of the identity from which the Non-personal Information is collected. Non-personal Information may include your aggregated usage information and technical information transmitted by your device, including, without limitation, certain software and hardware information about your device (e.g., the device you use, the type of browser and operating system your device uses, language preference, installed apps, access time and the website's domain name from which you linked to the Services, etc.), in order to improve the functionality of the Services. We may also collect information about your activity on the Services (e.g., actions, times, etc.).

The second type of information is individually identifiable information; in effect, information that identifies an individual or may with reasonable effort identify an individual ("Personal Information"). Such information may include, without limitation, the following:

- a) **Account Information:** When you sign-up and register to the Services, you will be asked to provide us certain details about yourself. You may register to the Services through your social network account or directly through the Application or our website (if applicable).
- b) **Registering through social network account:** When you register or sign-in to the Services via your social network account (e.g., Facebook, Instagram, LinkedIn, Twitter, etc.), we will have access to basic information from your social network account, such as your full name, home address, email address, birthdate, profile picture, friends list, personal description, as well as any other information you made publicly available on such account

or agreed to share with us. At all times, we will abide by the terms, conditions and restrictions of the social network platform.

- c) Registering through the Application or our website (if applicable): When you register to the Services through the Application or our website, we may collect from you the following information: full name, email address, home address, birthdate, phone number, as well as information required for our compliance with federal and international regulatory requirements, such as passport or other identification number and copy, and any other information you agreed to share with us.
- d) Voluntarily Information: We may collect information which you provide us voluntarily. For instance, when you respond to communications from us, communicate with us via email or share additional information about yourself through your use of the Services. We may also collect the feedback, suggestions, complaints and reports which you send to us. Please note that we may also collect complaints about you from other users, which may include your Personal Information.
- e) Device Information: We may collect Personal Information from your device. Such information may include geolocation data, IP address, unique identifiers, as well as other information which relates to your activity through the Services.

For avoidance of doubt, if we combine Personal Information with Non-personal Information, the combined information will be treated as Personal Information as long as it remains combined. We use the information to fulfill your requests, provide KeyoCoin functionality, improve KeyoCoin quality, personalize the user experience, display relevant advertising, provide customer support, message you, back up our systems, allow for disaster recovery, and comply with legal obligation.

If you exchange messages with others through KeyoCoin, we may store these messages in order to deliver them and allow you to manage them. If you send information from KeyoCoin to your phone via SMS text message, we may log your phone number, phone carrier, and the date and time that the message was processed. Carriers may charge recipients for texts that they receive.

Also, please note that you cannot opt out of receiving required administrative or legal notices. If you feel that an unauthorized account has been created depicting you or your likeness, you can request its removal.

2. COOKIES AND GOOGLE ANALYTICS

We may use cookies and other technologies or methods of web and mobile analysis (e.g., such as, pixels, Google Analytics, amplitude, intercom, and MailChimp) to gather, store, and track certain information related with your access to and activity through the Services, including when you visit our website.

A "cookie" is a small piece of information that a website assign to your device while you are viewing a website. Cookies are very helpful and may be used for various different purposes. These purposes include, among other things, allowing you to navigate between pages efficiently, enabling automatic activation of certain features, remembering your preferences and making the interaction between you and the Services quicker, easier and smoother.

Our website may use the following types of cookies:

- a) Session Cookies which are stored only temporarily during a browsing session in order to allow normal use of the system and are deleted from your device when the browser is closed.
- b) Persistent Cookies which are saved on your device for a fixed period and are not deleted when the browser is closed. Such cookies are used where we need to identify who you are for repeated visits (for instance, to allow us to store your preferences for the next sign-in).
- c) Third-Party Cookies which are set by other online services that run content on the page you view on your browser (for example, by third-party advertising companies who monitor and analyze our website access).

You may remove the cookies by following the instructions of your device preferences. However, if you choose to disable cookies, some features of the Services may not operate properly, and your online experience may be limited.

We also use a tool called Google Analytics to collect information about your use of the Services. Google Analytics collects information such as how often users access the Services, what pages they visit when they do so, etc. We use the information we get from Google Analytics only to improve our Services. Google Analytics collects the IP address assigned to you on the date you visit sites, rather than your name or other identifying information. We do not combine the information collected through the use of Google Analytics with personally identifiable information. Google's ability to use and share information collected by Google Analytics about your visits to this site is restricted by the Google Analytics Terms of Service and the Google Privacy Policy.
