A White Secret To Explore

You've got a secret and it's safe with me. I know you're here because you've been dreaming of having an extra cock to please you. At night while you suck your husband's dick you've imagined that my handsome muscular body is behind you ready to approach. You cannot see me but lift your ass to summon me gently. Tonight your dream comes true and with one strong hand I grasp your hip while the other holds my thick, white flesh up to your pussy. As the tip begins to part your lips a muffled moan slips out of your cock filled mouth. Rubbing, poking, sliding on my dick I'm setting you up. You are wet with no hesitations. You're wet because I'm there.

I plunge forward as your pussy opens with a tight squeeze. You moan louder, sucking your husband's dick faster and harder. Slowly I pull out then push back in a little more. Your wet pussy consents and takes me in ever deeper. Your knees are trembling as you prepare to envelop all of me then suddenly I pull out of you completely. I start to tap your ass with my pulsing cock, teasing you to beg. You let go of the dick in front of you and turn back to look at mine. At that moment I plunge into you with a smirking surprise, full force shutting down your glare. I take you with purpose as you scream out my name.

At that moment your husband shoves his cock back into your mouth as I fuck you hard and steady. You devour his dick as I devour your hot pussy. With every inch pounding into you I reach for both of your hands and bend your elbows behind you. Locking our arms I pull you tight and push so far deep into your pussy that you scream in your throat. With nothing to hold your balance you are sucking harder for a grip.

You can feel my masculinity growing inside of your walls, plunging to break free. I start to fuck you even harder, so hard you can feel me in your stomach. The sound of your tits clapping is driving me insane, speeding up my thrust. We're fucking, sucking, harder, faster. I grip you tighter, breathing heavy on your back. Fucking, sucking, harder, faster. You can feel the efforts of my fit abs and muscular body being pushed to the limits pleasing you and you are filled with a sick joy as my sweat trickles down your ass crack. Fucking, sucking, harder. Fucking, fucking, faster... faster... You feel the entrance to both ends of your body fill up as both of our dicks start to swell with tension. Faster please... faster please... faster plea... motherfucker!

You explode all over my swollen cock as I grab your shoulders for one last thrust. Your convulsions tap into my senses and as if on cue, we both pull out our dicks and exert cum all over your body. You're pulling, fondling, sucking our balls as you take every last drop of seed from us. Into your mouth, your face, your hands. Covered all in white. You're covered in your favorite secret.

Beautiful Black Woman

I need to worship an ebony princess. Your smooth dark skin and subtle curves have me on my knees. I'll treat you to a massage to put your body at rest. As I caress your legs and back with my strong and capable hands all your worries melt away. My touch is sensual and intimate as I work my fingers up your inner thigh. Gently I caress you as my fingers slid between your moist pussy lips. For a moment I tease you but I know what you need. You're so wet for me now and my dick is reaching for you. I bend you over and slide my shaft between your legs. It tickles your clit for a moment then with a thrust you take it in. Shock rushes through your body as you savor how good it feels to be full while I pound you hard with my massive cock. You're moaning and screaming with delight as I reach my hand around and begin to tickle your clit while you bounce rhythmically with each long thrust.

Harder and faster we grind, giving in to our primal urges. Pinned down your body is writhing beneath me as I drill your pussy to the ground. Your knees are weak and trembling as the waves of pleasure build throughout your body. I continue pumping deeper, filling you as you clench and squirm against me. Suddenly with a moan you collapse as your body is lost in orgasmic delight. Feeling your release overwhelms me and I pull out spraying cum on your legs and ass. In that moment, dripping with sex, I am yours.

How do you screw up a blowjob?

I honestly don't know... and maybe it's harder than it looks, but it blows my mind how many women are terrible at giving head. When done right, there is nothing more satisfying than being pleased by a beautiful woman taking me into her mouth.

When you look me up and down, walk over and grab my belt, I know I'm in for a treat. With your hands, my latch comes undone and you follow it down as you drop to your knees. Wet kisses land on my belly as your hands wrap around my cock. Moving closer inch by inch, you begin to kiss your way up my growing, pulsing masculinity. Your hot kisses travel along the side of my dick as you marvel at its strength and girth. You look up at me as you start licking the tip and lavishly kiss every inch of my shaft then pull me in for that mind blowing first thrust.

When you know what you're doing, you'll buckle my knees as your lips wrap around my cock and your bright beautiful eyes see me lose my mind in satisfaction. While you're working me inside your mouth, I feel your tongue dancing and massaging from all sides. It's so wet and warm I get hard as a rock when you pull away for a teasing moment. Smiling at me, you begin to kiss along the sides of my dick, down the shaft, then back up with a final sensual kiss on the tip that continues to slide me back within. One hand grabbing the base of my shaft with the other wandering... caressing my balls... caressing yourself.

You get excited and start to go faster. My hand rests atop your head, lost in your hair and following your movements. You're taking me deeper, sucking harder as you watch me shake and moan in excitement. I begin to slow you slightly, letting you know that any more and I'll have to cum. You are so eager, you resist... you pull back, look me in the eyes and say "Cum for me!"

You take my dick back into your mouth as you pull me closer with your hands. Long sensuous strokes swallowing as you bob along my throbbing cock, watching me closely to see how much more I can stand. My fingers clench and with a stuttered breath, I moan I can't take it any more. Just then you open your mouth and start licking the base of my dick with your tongue, allowing me to see myself there inside you. You quickly stroke my shaft, switching between sucking the tip and showing me your mouth where you want me to cum. Your longing eyes begging me to give you your reward. I explode. Cum washes over your tongue and dribbles down your chin. You begin licking and sucking all that is left from my dick, as I float away in the ecstasy of release. When I collapse in the electric euphoria of your talents and see your beautiful face wet with my seed, I know that I am with a real woman who knows how to treat a man.

I'm the MAN you're looking for

I know your secret and it's safe with me. You've seen me and every other strong and handsome man eyeing your wife all over town. Lusting after her amazing body while begging for a playful glance of recognition. You've seen me drooling over your wife, barely hiding my growing erection, and you want her to have her way with me. You want to see your most prized trophy ridden hard by another stallion.

You need the excitement of a tiger set loose in your room as I rip the clothes off my muscular body. Your wife is wet with anticipation ready to be fucked. As I slip her panties off she looks at you in disbelief while my fingers expertly massage her clit. Her wet pussy needs me now and my hard cock is ready. With the tip I part her moist lips and tease her for a moment sliding in her juices. She's looking at you for approval, nervous with anticipation, then with a thrust she is penetrated. Pure ecstasy flashes over her face as I take her hard and deep.

Screams and moans fill the room while I pound her into the bed. Suddenly she says your name, she's asking for your cock! She is begging you to let her suck it as I drill her from behind. Her eyes are watching you and with sheer joy her lips wrap around the head of your erection. She is trembling from the sensation, suddenly cumming as she takes you in. Her moans muffled by her cock filled mouth while her body writhes and squirms with sensitivity.

Your wife is sucking your dick like never before, energized by being ravaged so thoroughly. She wants our cum so bad she is begging for her reward. She drops to her knees and grabs our cocks in each hand, sucking and licking them ravenously. I can't take it any longer, with her lips on my dick I explode. Cum drips from her mouth, spurting on her face and chest as I release all over her. At the sight of your wife dripping in cum you lose all control and burst, spraying her face and chest. Pools of cum sliding down her body, over her stomach and dripping off her throbbing pussy lips.

It's time for your escape

You've been a naughty girl when no one's looking. That's what brought you here. So serious and intellectual you think you've got everything under control. . . Yet here you are again searching for release. Your restraint is amazing to hold back so many wild urges. Denying yourself the forbidden pleasures your body instinctually demands.

Behind closed doors you fantasize about being fucked and used. You dream of having your wet pussy teased and penetrated by my enormous masculinity. Beneath your mask of prudence you're begging on your knees to suck every last drop of cum from my throbbing cock.

Your mind can't control what your pussy wants. Your imagination can't give you the pleasure that it needs. And so here you are, searching yet again. . . tempting yourself to lose control and release the overwhelming passion you have bottled up within.

You are looking for me. I am those wild dreams you've suppressed and denied. I will devour you completely. Your life will have new meaning in the presence of my dick. All worries and obligations melt away in the trembling delight of your wet pussy. You can feel it now... your excitement growing as you wait and wonder what would happen when we meet.

I will take you past the limits of your wildest imagination to new heights of orgasmic ecstasy. In our secret world are pleasures beyond any fantasy. As I pin you down, while you squirm and writhe beneath me, you will find serenity. As I fuck you hard against the wall the door to enlightenment will be opened. Bound and blindfolded, bouncing on my cock, I will set you free.

More than casual

I'm looking for a friend with benefits. Emphasis on the FRIEND. Let's face it, we're both good looking so either of us can fuck whoever we want. That's all fun and games but what we really need is someone who really GETS us. Someone who isn't afraid to break rules or make new ones. One without the drama, who likes to try new things and go on adventures. At night, when you're bored, I'll be texting you to make you laugh. We'll talk, hang out, mess around and get lost in discovery.

Our intense sexual marathons will be anything but casual. Testing fantasies to push the limits of our desires; clutching, sucking, fucking until our trembling bodies explode. Let's pick up women together and mix it up a bit. Bring another guy in if you find someone you like. Between us, there are no boundaries to our imagination. Ours is an honest and open relationship, between true friends who like to fuck.

New temptation

Where are all the sirens calling into the night drawing drunken sailors to crash onto the rocky shore? I know there's temptation out there... I know you feel it too. You're a seductress with every move the heart of man trails after you. You enjoy the game, twisting men around your finger with a glance or coy remark. You know the score and desperately want someone to raise the stakes.

We are hunters. The thrill of the chase makes us alive. Sedentary routine is against our nature so here we are on the prowl for something new. Our passion cannot be contained. Desire stirs deep within our bones. Our instincts brought us here to find each other and satisfy our needs.

When our eyes meet the sense is immediately electric. Warm kisses raising heat as our hearts pound within our chests. Your hands discover my strength as I wrap you in my arms. On the floor in overwhelming ecstasy we ride into delirium. Pushing the limits as we raise to new heights our bodies tremble with relief. This is what we're searching for. The thrill our bodies crave and need.

STD Clean with Proof

I am 100% drug and disease free with documented results from a recent STD test on 7/16. I feel fresh and clean like a newborn onto the earth and I'm looking for someone else who's clean to get hot and dirty with.

I feel like a virgin getting touched for the very first time. This is a rare opportunity like the first bite of an apple, that new car smell, or footprints on the moon. It's a special occasion and you're the guest of honor. Unwrap your present, dawn your birthday suit and lets get this party started!

The best way to spend Thursday night?

I know exactly what we're going to do tonight. We'll head to a bar and order a few drinks, size each other up (which won't take long once you see how sexy I am) then once our undeniable chemistry has been established we'll grab a bottle of wine and head towards your place. You grab some glasses and when I pop the cork things start getting interesting. I've been noticing that you can't take your eyes off of me and you keep glancing at my lips as I take your mind off all the boring day you've had. We're sitting on the couch and as we talk you've been scooting slightly closer to me. I start to tell you about how amazing you look and you're blushing... I sweep your hair out of your eyes and within that glancing contact our eyes lock and begin to move in for a kiss.

Everything disappears within the electric energy of our embrace. My warm kisses tasting you, tasting me... our hearts are racing as our hands begin to find each other caressing and ripping off clothes with abandon. My kisses trail down your neck, each one leaving goosebumps as your body begs for more. Moving down my lips find your subtle breasts, your nipples growing hard as my tongue dances over them, licking and teasing as you moan with delight. I continue moving down across your belly and begin to pull your panties off. Your mind is lost in ecstasy as my face is lost between your legs. My warm tongue parts your moist pussy tasting the juices of your excitement. Kissing and licking I tease your clit as you swerve and grind against me. Your fingers slide through my hair as you guide my head exactly where you need me. You're screaming and moaning as your legs begin to buckle and twitch uncontrollably, your mind is gone completely lost to the amazing sensation. As you cum your legs clench and force me back where I move to kiss your belly and thighs. As you look down at me in disbelief floating back from the euphoria washing over you... you see me rising and suddenly my hard cock is throbbing ready to please you yet again.

When you're ready send me a message and let me know.

This is what you're looking for

It's almost midnight and here you are yet again scrolling through personal ads like you've done nearly every night this month. Laughing at some, shocked by others, at best amused that so many people are willing to put themselves out there.

A need is growing within you that has you looking for release. Your curiosity has you searching for someone who can satisfy your fantasy. With disappointment you pass by ads saying "Giant COCK!!!", "Do You Love Anal?", and "R u looking 4 a hookup?" Then suddenly one catches your eye. You anxiously click the blue link and to your delight it describes a successful, educated, and attractive man looking to enjoy amazing sex with a seductively beautiful woman. You look at the picture and you can tell he's athletic and takes care of himself. He's down to earth with a good sense of humor and his post is full of clever wordplay to prove it.

Suddenly you realize that what you've been looking for is only a click away. You open your email and excitedly reply to the ad. Feeling giddy you anxiously brace yourself for the deep, satisfying sexual experience your body has been desperately craving for so long.

This post is different from the others...

A man is only truly home when he is with a woman. It is your blazing feminine energy that makes me a man... and makes me behave as a man.

I want to give you something to think about all day, as you toil away at work. You need this release and you deserve it. Tonight, I am going to take you into my world where you will belong to me completely, as you have never before belonged to another.

When I see your beautiful face, your glowing eyes and soft, delicious lips, that is when I become alive with purpose. You are shy to let me know how much you need to be swept away from this dull routine, but I know your desires. You have not seen me, yet in your heart, I am what you've been searching for. For a long, long time you have been yearning to be free. When our eyes meet and the hairs on your arms stand on end with anticipation, everything else just melts away. Nothing matters outside of us. All that exists is the electric energy of our senses.

The warm smell of your hair as my hand cradles your head, I pull you in tight for a kiss. As I taste you and tease you, your mind is lost to the feeling of pure delight. Your tingling body begs for more as I grow harder near your subtle form. My hands caress your skin like water washing over you. Every inch, alive with feeling and begging for attention. Looking at me, you can't believe this pleasure as you feel my fingers caress your rapidly growing nipples. Touching the top, feeling its hardness, your hands begin to find me.

You need me now. My strength and girth, as you wrap my power between your legs. Swelling and reaching for you, finding its way to the ecstasy of being surrounded by your warmth, as you tease me and pull away... until all at once, I plunge quickly, deeply inside of you. Overtaking your will, defenseless and in my control, your spirit rising to its pleasure. Nerves raised with delight, heightened, fully aroused; we move back and forth against them. Riding my hard and powerful shaft, your juices flowing... raising us higher... lifting us on a cloud... holding, holding... together holding... trying to maintain the very little control we have left. To rise to that place we always knew was there, that we had almost reached... but never quite gotten to before. Together. Grasping, holding, reaching into each other to share this experience and all at once, cumming in a blaze of glory! Ecstasy embracing us while floating and extending our passion, suspended together in the moment. Waiting a moment. Then slowly, coming back into this time. This space, together. Even more so than before: one person, one soul. Such pleasure never known... meant to be... with you... with us... Ecstasy!

I'm waiting for you.

When you are ready, send me a message so we can get started.

You deserve this

You deserve this. For too long, you've put everyone's needs before your own. For too long, it is you who deserves to be pampered and pleased. To forget about everything else and be the priority. Today's singular purpose, is your infinite satisfaction.

You deserve to be wanted and longed for. For your beauty to shine through your body, as I tear your clothes in the heat of the moment. To radiate life from the inside out, as your sex is teased and cherished. You deserve to be owned by a man, who knows how to show appreciation for good pussy.

Today, you are no longer bored or lonely.
Today, you will quiver with longing delight.
Today, you will know what it means to be ravished.
Today, you get what you deserve.

You need to know this first

You're not getting out of bed today. You deserve to be spoiled in all the right ways and I am coming to release you. As I walk through the door you forget about everything but the one need that must be met. Your eyes lock onto me like a lion tamer encaged with her beast. Muscles flexing as I pull my shirt off and approach. Your heart is racing watching me get closer, but your body is screaming for my touch.

I slowly slip your shirt from your shoulders, letting it drop to the floor. My hands run down the length of your arms and our fingers become intertwined. With your hands pinned to the bed I kiss you long and deep, our bodies pressed tightly against each other. Lost in the senses of the moment your mind is gone as my kisses trail down your neck. Your skin begs for more while I continue moving down licking and kissing your firm and sensitive breasts. My tongue dances over your beautifully erect nipples as you moan and writhe beneath me.

With a tug our pants are off and your legs are reaching to pull me closer. I continue kissing down, lower and lower until my face is gone between your legs. As my tongue parts your juicy lips you instantly lose your breath. Your hands instinctively clench the sheets and your knees buckle as your clit shudders with wondrous waves of intensity that cannot be contained, crashing out of your pussy in thick rolls of cream sliding on my face.

I grab your waist and roll you over, riding on my chin you give in to the primitive motion, flexing your hips and grinding as I lick. Throwing your head back, lost in delight, you find my dick throbbing hard and grab a hold. As you spin your body around your kisses trail down my rippling abs, you swirl your tongue around my navel then wrap your lips around the head of my erection. You are in the throes of passion as my tongue dances and discovers new pleasures on your protruding clit. All of this energy is let loose as you suck and lick me inch by inch. Your mouth is full and you can feel my rock hard heat pulsing with your tongue as I pop in and out inside you.

You're grinding harder and bobbing quickly lost in the rhythm of our embrace. Chasing the horizon your legs are trembling and suddenly climax washes over you. In a spasm you're writhing as muffled sighs escape your cock filled mouth. My hands clench uncontrollably grabbing tight your grinding waist. I can't take it any longer, moans come out buried in your pussy as my cock erupts in ecstatic spurts between your trembling lips.

Your boyfriend is an idiot

He doesn't appreciate what he's got and he isn't man enough to treat you right. You're beautiful. A real woman with needs and desires that little boys will never understand. He's busy playing games when he should be making moves. His idea of seduction is to wear you down with never-ending pleading and manipulating until you surrender yourself to his fumbling, awkward advances. With kind words he lulls you into fulfilling his primal needs, making you feel disgusted and used by him, because his sweet talk is nothing more than a tool to break your will.

You have passion that needs to be released. You are here RIGHT NOW because you know this. Your heart is yearning to be taken by a man who knows what he wants and gets it. To be swept away with desire the moment you enter his presence. Remember how it feels to be filled with butterflies as you long to be kissed for the first time?

I will make you feel alive again in ways you've never felt before. Your urges and desires deserve to be satisfied. To be excited and filled with unbridled animal attraction that radiates from the core of your being. In my hands you'll lose control as you're pinned down and completely ravished. All thoughts and worries will melt away until all that remains is our primal sexuality.

Send me a message.

I am completely discrete.

Our experiences stay between you and me.

Hate giving blow jobs or not sure if you're doing it right?

As I'm sure you know. . . guys love blow jobs.

WE LOVE THEM!

For most guys truly good head is a once in a lifetime thing and if you know how to do it right a guy will remember you for the rest of his life.

Being able to give an amazing blowjob is the biggest secret to making a man fall deeply in love with you.

But nobody ever talks about the importance of blowjobs honestly.

Most guys are so happy to have their dick sucked that they don't complain even if it's the worst BJ ever.

They just smile and say "that's great baby, I really liked that" while in the back of their mind they're thinking "that other girl was so much better than you."

Which causes most women to go about their lives thinking they're all good when in reality they're sucking like a mime on American Idol.

It's really not your fault, but the sad truth is most women are terrible at giving head.

In fact a lousy blowjob is the second most common reason for a break-up? (By the way the #1 reason is nagging.)

So many women struggle their entire lives wondering why guys cheat and leave them just because they don't understand this simple fact.

But when a woman truly knows how to suck a dick she can have and keep any man she wants.

And I want to teach you how to give head so amazing that your man will never desire another woman's mouth in his entire life.

And I mean it.

I'm not your boyfriend and I won't lie to you.

I'll show you everything from the very basics to the most highly advanced techniques.

I offer private 1-on-1 instruction in a safe, friendly, and fun environment.

You will learn over 20 various high-level techniques hardly any women know and most men have never felt before.

Our embrace

It's movie night and your cooking smells delicious. As you stir in the final secret ingredient my hands wrap around your waist with a tiny grateful kiss to the cheek. Sitting down the movie starts. As we watch our bodies play, caressing and holding each other close. My hands trail along your legs, dancing over the smooth and beautiful skin of your thigh. It tickles as I trace along forgotten places yearning for attention.

We settle into bed and our entangled silhouette gets lost beneath the sheets. Spooning you're cradled up against me. In my arms I hold you tight. Between our kisses we whisper our delirious happiness to have everything we love within arm's reach. As we begin to drift to sleep in the comfort of our embrace the lines are blurred between dreams and reality. Our bodies blend together until neither of us can tell where we start or end. In this trance our minds escape and in our slumber we are one.

Before you go to bed tonight know that you deserve this.
Message me for more.

Your missing half

I've dreamt about you nearly every night this week.

Been wondering if you're searching for me too.

My missing piece.

It still hurts from when they cut us in half.

The pain felt deep in our heart...

That pain, the feeling of love.

I'm looking for you but I don't know your face.

I'm reaching for you.

I need your embrace.

We'll wrap our arms around each other.

Put ourselves back together.

In love, making love.

If you feel it too send a message and let me know I've found you.

The Dream: part one

You've got a great sense of humor and we'll laugh at our jokes. I'll touch your feet while we're watching T.V. on the couch and nestle my face in the back of your neck to smell your freshly washed hair. I want you to share how you're feeling when you're upset and I want to listen because you are the sunshine of my life. We'll watch a full moon together on the coast and go hiking in Tahoe this summer. When we're alone I'll gently touch every part of your body and give you goosebumps with my warm kisses. I want you to be the rain in my life that makes everything seem fresh and new. We'll share our favorite songs and discover new music together. I want to forget about everything and just enjoy being with you. In each other's arms we won't want to get out of bed. If you get thirsty at night I'll get you a cup of water. I want to see your breast rise and fall as you sleep. I can't wait to steal a smile from you when you're trying like hell not to smile at me. Someday you'll take me to your favorite place from when you were a kid and there I will wake up and realize this is real.

Tell me your dreams and we'll make them come true.

How to get a boyfriend

The only meaningful way to start a lasting relationship is to have a clear idea of what you're looking for in a man. Without a vision of what you're after your search for love is blind.

You need a man with purpose and direction. Someone who takes charge and knows what he wants. The sort of guy who isn't afraid to speak his mind but also knows how to listen. By day he applies his talents to meaningful work improving the world. At night he laughs the hardest among his many friends. Together you'll discover hidden treasures in new places, experiences, and the corners of your hearts. You'll see the world anew with wide eyed splendor but it's the little things that matter most. Holding hands on evening walks. Thoughtful conversation. His loving embrace with every greeting and again when you depart. Playful kisses. Gently caressing each other as you watch movies on the couch. Every mundane moment comes alive with purpose as you share your lives together.

Your new and happy life begins today. I'm the man you're after and we're only clicks away. Send me a message and let the smiles begin.

Let The Adventures Begin

I know you want out just as badly as I do. I'm going crazy here punching the clock, listening to co-workers chatter on about their drama, looking forward to escaping to a new adventure.

I've got this place where I can go to get away from it all. It's a secret and it's beautiful... and well it's actually quite romantic... The only thing that could make it any better would be to share it with my partner in crime.

You're out there with a fire in you for the joys of life. You like to explore and try new things. Traveling, hiking, snorkeling, and discovering what's out there. Even the little things are made better by your positive spirited attitude.

I'm (describe yourself)

Together every day will be an adventure as we get to know each other. The excitement of being on a journey through life together. Having a witness to all those special irreplaceable moments that happen every day when we put ourselves out there.

It all starts with an email.

Let The Adventure Begin!

I'm tired of Tom Cruise

I miss real action heroes. Either expert ass kickers like Van Damme, Chuck Norris or Steven Seagal, or gigantic monster men like Schwarzenegger & Stallone. Now days it's all Matt Damon and Tom Cruise acting like they're all badass. Really I think it started with The Matrix... I loved that movie but couldn't believe that Keanu Reeves actually knew kung fu. I thought they used computer graphics to put his face over an actual martial artist doing those moves! From then on it's been all A list actors, fast cuts, and CG instead of real action hero awesomeness.

The only true action movies being made anymore are Asian... and they are awesome! Crouching Tiger Hidden Dragon blew my mind back in the day. Tony Jaa in Ong Bak is the real action hero reborn. The Raid Redemption takes it all to the next level.

I am looking for someone who wants to watch real action movies with me. We can share something new watching something old. If you know a movie I need to see blow my mind and let me know.

Show me your Kung Fu!

Let's watch Californication

I've been hearing a lot of good things about the show Californication but have yet to check it out. I love black comedies like American Psycho, Fight Club, and Beetlejuice but haven't really watched a show like this before. I typically don't watch TV alone and everyone I know who is into this is deep into the later seasons. Let's start from the beginning and see if Californication is right for us.

Hit me up so we can get started!

Like Spanish Dramas

I've been getting into Spanish language films lately and am looking to watch movies with someone who shares my interests. I really like Y Tu Mama Tambien, The Sea Inside, and the work of Pedro Almodovar (The Skin I Live In, Talk to Her, Broken Embraces).

I'm sure that there are tons of great movies I have yet to find so let me know your favorites! If you're a Spanish speaking Latina that's a plus porque es una oportunidad para practicar mi español.

Two shows we must watch

There are two shows I really want to watch that everyone insists are absolutely amazing. The first one is The Black Donnellys. It's about an Irish family and their battles with the mob in New York. It only ran for one season so we could probably knock it out really quick. For a longer engagement the next show on the list is The Wire. EVERYONE says the wire is even better than Breaking Bad and that's hard to believe. Breaking Bad was one of my favorite shows so if The Wire is truly that great it may change both of our lives forever.

Send me a message and I'll bring the popcorn.
Prepare to be entertained!

Catch up on Orange is the New Black

I'm starting to get into Orange is the New Black and I'm already hooked! I just moved to _____ from _____ and none of my friends here are watching this show. It's not really the sort of thing a guy watches alone... or with other guys for that matter... so here I am looking to meet someone cool who wants to watch this show with me. I have Netflix so the episodes are all there. I'm a few episodes into the first season and want to watch a few more tomorrow.

Drop me a line and we can figure out the details. Heck, who knows... if we start with this we may find out that we actually have all kinds of other things in common!

Watch Game of Thrones Together!

I'm just going to get it out of the way and let you know right here and now that I haven't read the books. I've heard they're great but I started out on the show and just haven't gone back... and probably never will. It's so addictive!!! I used to have parties in _____ where my friends would come over and we'd make up drinking games to go along with the show. I just moved to _____ and don't have many friends who watch it here so I'm looking to connect with others who share my seasonal obsession. I have HBO GO and everything is set for the next episode... or if you need to catch up.

Drop me a line and let's revel in this medieval drama together!

Do you watch Sherlock?

Sherlock is the most mysterious show on television. Why are there only 3 episodes per season? What do they gain from tormenting us so?!? I'm searching for a partner in crime to witness the spectacle as the season unfolds. A Watson to my Sherlock or vice versa I presume. You must be sharp and clever to follow the twists and turns that will surely come. Though this endeavor we will challenge the limits of our curiosity. Riddle our minds in a battle of wits worthy of the great detective.

Are you up for the challenge?

Will you take the case?

Send a message and watch Sherlock with me.

Am I the only one laughing at all these posts?

You see what I'm seeing right?

What's up with everyone looking for a date like they're shopping for a couch or something?

"looking for a blue couch that seats 4 with hide-a-bed" = "I want a short Asian/Latina between the ages of 19-21 for NSA hook up"

I'm pretty sure that's not how dating works.

Maybe I'm wrong.

I'm gonna try something different.

How about I say a few things about myself and if we share some interests then hit me up.

I like (list some authors or musicians you like)

(List some TV shows and movies you like)

(Summary of your occupation and hobbies... a bit about you)

(List some personal interests like "creativity, social justice, ambitious")

If these things interest you then you're the one for me.

If this doesn't work I suppose I'll try using dick pics next. They seem very popular 🙄

Looking for a zombie
apocalypse survival partner

I am looking for a bad ass chick to survive the zombie apocalypse with. Someone I know will be there hacking and slashing the undead horde right next to me. Someone who has my back no matter what. Somebody that'll help me bury the bodies... just kidding, I'm strong enough to do that alone.

Must be willing to wear leather and own your own crossbow.

I'm the kind of guy that's not afraid to get my hands dirty.

(Describe yourself)

And you better believe if I find chocolate I'd save it all for you 😊

I need a woman who's resourceful, not a weak minded milk-toast or the sort that won't cooperate and just lets zombies in the back door to get us all killed (you know the type... you know who you are).

When the time comes I'll find us canned foods and ammunition. If you know any dog food recipes that might come in handy. If I get cornered, back against the wall with undead pouring in all around me... It will be thoughts of you that give me the strength to disembowel my way to safety.

Don't hesitate.

We need to organize.

Send me an email and together we won't just survive, we will THRIVE through this thing.
