

Final Countdown

For 2 to 4 players

Supplies:

- Deck of cards
- 3 game pieces per player to be used as *Multiplication Chips*

How to Play:

1. Shuffle the cards.
2. Deal out 4 cards per player.
3. Place the remaining cards in the middle face down.
4. Player One places a card from their hand face up in the center and subtracts the value from 100. (For example, Player One plays a 7 and says 93.) They take the top face-down card to replace the card they played.
5. Player Two places a card from their hand face up on top of the first card, subtracts the value of their card from the new number, and takes a card from the face-down pile. (For example, Player Two plays a 10 and says 83.)
6. As play continues, each player adds a card to the pile and states the new difference.
7. After playing their card, each player picks the top face down card from the center deck to replace the card they played.
8. The first player to get to zero or below wins.

Multiplication Chips:

- Each player gets 3 *Multiplication Chips* which they can play when it's their turn. The chips change the value of a card.
- The player can use a chip to multiply their played card by 3 or 5. For example, a 6 card played with a Chip means the player can subtract 18 or 30.

Aces — 1
Jacks — Double the previous card played
Queens — Wild Card (can be played as any other card in the deck)
Kings — 0
All others — Face value (2 to 10)
