### **TRUCE Responds to Governor's Press Conference**

SALT LAKE CITY — Christine Stenquist, Founder and Executive Director of TRUCE, has released the following statement in response to the press conference held today:

“We are willing to listen but we will do so skeptically. Cautiously optimistic, but skeptical.

Speaker Hughes and former Senator Mark Madsen pointed out that there are issues of trust between patients and the Legislature. That has not changed. A special session with a lame-duck legislature is still something to which we are opposed.

We still see Prop 2 as the best insurance policy for good medical cannabis law in Utah. But if what we're hearing is true and genuine, it is worth listening to.

TRUCE will be reviewing the bill language and releasing a statement when we have had time to do so. We will always put patients before politics.”
