## Day by day

### DAY 1

#### Sitka, Alaska / Embark Ship

**Arrival Time:** Arrive by 2:00 p.m. local time.

**Arrival City:** Sitka

Arrive in Sitka, Alaska, situated on the western coast of Baranof Island and overlooking the Pacific Ocean, in the early afternoon and embark *National Geographic Venture* or *National Geographic Quest* in time for cocktails and an introduction of the vessel staff and crew.

Meals included: dinner

### ◇ DAY 2

#### Southeast Alaska's Islands, Bays & Fjords

*Our Forest Service Special Use Permit for Tongass National Forest enables guests to hike and kayak in wild and remote areas of Southeast Alaska.*

Today, nature is our guide as we set forth with the flexibility to take advantage of wildlife and weather conditions. We may stop at an isolated beach to take a closer look at tide pools, beachcomb, and hike stunning forest trails. Keep an eye out for old bear tracks worn into the soil as you move from forest to meadow. Sightings of bald eagles are common. If conditions permit, we will offer kayaking, always watching for wildlife.

Meals included: breakfast,

### ◇ DAY 3

#### Icy Strait and the Inian Islands

Explore among the Inian Islands, the abundance of Steller sea lions and seals that reside. We will search for marine mammals in the

nutrient-rich waters of Icy Strait and choose the perfect spot around Chichagof Island to hike where sightings of bald eagles are common.

Meals included: breakfast, lunch, dinner

### ◇ DAY 4

#### Glacier Bay National Park

We spend the entire day amid the coves, fjords, tidewater glaciers and majestic mountains of Glacier Bay National Park. Witness glaciers that end abruptly at the water's edge and observe them calving, when tons of ice separate and crash into the water accompanied by a thunderous sound. Mountain goats scaling the peaks as well as harbor seals, Steller sea lions and puffins are some of the creatures we may observe. A visit to Tidal Inlet may bring the sight of brown bears lumbering up the hillside.

Meals included: breakfast, lunch, dinner

### ◇ DAY 5

#### Frederick Sound and Chatham Strait

These waters are prime areas for both orca and humpback whales. With luck, guests may observe their fascinating behavior—breaching, tail-slapping and variations on feeding—as we fill the deck and listen to the play-by-play from our expert naturalists. We will explore spectacular bays and inlets, following bear trails and salmon streams. Once ashore, we have the opportunity to walk along a quiet forest trail. The still waters are excellent for kayaking, offering another option for up-close exploration.

Meals included: lunch, dinner, breakfast

### ◇ DAY 6

#### Petersburg

Visit the small, true Alaska fishing town of Petersburg on Mitkof Island, which still retains much of its Norwegian heritage. Explore a unique Southeast Alaska ecosystem, the muskeg, with stunted trees and carnivorous plants. There is an opportunity to stretch your legs with an optional bike ride around town. This evening, enjoy a crab feast.

Meals included: breakfast, lunch, dinner

◇ DAY 7

## Tracy Arm-Fords Terror Wilderness

Voyage into Tracy or Endicott Arm, both spectacular fjords, with waterfalls cascading from glacially carved walls. See the soaring Dawes or South Sawyer Glacier up close and take a cruise in a Zodiac for an unbeatable view among sculpted icebergs. Keep an eye out for harbor seals, harbor porpoises and arctic terns.

Meals included: breakfast, lunch, dinner

■ DAY 8

## Juneau, Alaska / Disembark Ship

After breakfast we disembark in Juneau. Take time to visit the local shops before exploring the newly constructed Alaska State Museum, with its sprawling collection of natural history and cultural artifacts. Transfer to the airport for connecting flights home.

**Departure Time:** After 1:00 p.m. local time.

**Departure City:** Juneau

Meals included: breakfast

<b>Guests</b> 100	<b>Cabins</b> 50

**The *National Geographic Venture* is a state-of-the-art expedition ship ideal for discovering remote locations in domestic waters.**

Following the build of *National Geographic Quest* at Nichols Brothers shipyard, her sister ship the 100 guest *National Geographic Venture* floated into the bay on Whidbey Island, becoming the 4th ship in the Lindblad fleet built at this storied PNW shipyard. In the 1970s, Nichols Brothers built the twin ships *National Geographic Sea Bird* and *National Geographic Sea Lion*, which continue to sail the waters of the west coast of North America and Central America.

*Venture*, like much of the wildlife she follows, is migratory. She follows the seasons from Alaska, along the coast of British Columbia, up the Columbia & Snake Rivers, and along the Baja coast and into the Sea of Cortez. In each region, her design innovations were informed by 50+ years of expedition expertise to ensure extraordinary discoveries. Larger than her sibling twin ships, *National Geographic Sea Bird* and *National Geographic Sea Lion*, *National Geographic Venture* has the same shallow draft, enabling her to nimbly navigate the same inner reaches and provide the same intimate, 'insider' experiences of the charismatic regions we explore.

Like her sister ship *National Geographic Quest*, *National Geographic Venture* has dual boarding platforms, enabling our team to load two Zodiacs at once means guests get off ship quickly, to take advantage of wildlife sightings and maximize exploring time. Modern, cleaned-lined, with large expanses of glass to keep you connected to the extraordinary views, *National Geographic Venture* enables you to see, do and experience the best of her geographies.

***National Geographic Quest*, built in 2017, is designed for sailing into fast-moving channels and shallow coves in pan-American waters.**

When she rolled out of Nichols Brothers shipyard and into the bay on Whidbey Island, the 100 guest *National Geographic Quest* became the third ship in the Lindblad fleet built at this storied Pacific Northwest shipyard. In the 1970s, Nichols Brothers built the twin ships *National Geographic Sea Bird* and *National Geographic Sea Lion*, which continue to sail the waters of the west coast of North America and Central America.

*National Geographic Quest* was purpose-built to explore the fast-moving channels and narrow straits of Alaska, along the coast of Costa Rica, and into the gray whale nursery lagoons of Baja, her design and engineering informed by our nearly 40 years of experience in these regions. Her twin boarding platforms, for example, were suggested by a veteran staffer. Enabling our team to load two Zodiacs at once means guests get off the ship quickly to take advantage of wildlife sightings and maximize exploring time.

Larger than her siblings *National Geographic Sea Bird* and *National Geographic Sea Lion*, *National Geographic Quest* has the same shallow draft, allowing her captain to navigate the same inner reaches and provide the same intimate, "insider" experiences in these charismatic regions. Modern, clean-lined, with large expanses of glass to keep you connected to the extraordinary views, *National Geographic Quest* enables you to see, do, and experience the best of her geographies.
