

As a member of the UAccess Community, you’re likely to be interested in one or more of the discussion forums. Perhaps you’d like to receive email notifications from that Forum. To that end, we have a few recommendations for you regarding the various email settings available for the Community Forums.

**Updating Email Settings**

1. Navigate to one of the various Forums. Locate and click the User icon at the top right of the screen. The default User icon is a circle showing your initials.
2. Click on the Preferences icon. It looks like a gear or cog.
3. Scroll to the bottom of the page and locate the Categories section.
4. Click in the box below the Watched label and start typing the word UAccess. A list of categories (forums) will appear. Simply choose the forums from which you wish to receive email notifications.
5. Use the table below to make other modifications, as desired.

Categories: Normal	You will not receive an email unless someone mentions your @name.	This is the default setting.
