

DataWing Flight Academy

Experience – Learn how to pilot drones, navigate FAA rules and regulations, and pass the FAA Part 107 exam. Our staff has 45 years of professional flight instruction.

Safety – Safety is deeply rooted in our military aviation heritage. Learn aviation safety best practices from our veteran staff of military and commercial pilots.

Full-Spectrum – Ground training includes FAA regulations, airspace, safety procedures, radio procedures, mission planning, weather, physiology, and hands-on flights.

Success – Walk away certified. 100% of our students have passed the FAA's Part 107 examination. We schedule and help you pass the test during our course.

Trust – Major industry clients repeatedly entrust us with their drone pilots. Leaders in Oil & Gas and Insurance use us to build their internal drone aviation programs.
