

BE SAFE WHILE WORKING ON CAMPUS

Follow these easy tips to prevent the spread of contagious disease in the workplace:

Maintain a distance of at least 6 feet from others.

Wear protective gloves when cleaning.

If you feel sick, do not come to campus.

Cough into your elbow or a tissue, not your hand. Dispose of the tissue and wash your hands.

Wash your hands frequently for at least 20 seconds with soap and water, or use an alcohol-based hand sanitizer.

Clean and disinfect frequently-touched surfaces at home, work and school.

Avoid touching your eyes, nose and mouth.
