This will repeated for this year again next to other project like the “Turn off the light” for Earth Hour in Jordan.

Implementation

Care for the Environment (we advise our clients with following examples)

Dear clients, looking after the environment is extremely important for us at Jordan Select Tours and you can also do your bit by following simple steps on your holiday!

In your Hotel: You can try to use less energy and water simply by following the steps below:

- Please make sure you switch the light off any time when not needed.
- By using your towel the next day again, only leave it on the floor when you like a new towel, the hotel then replace it on your request!

Landscapes and Heritage:

- Please take your litter with you until you can dispose it properly.
- Jordan Select Tours believe in responsible tourism, please respect wildlife and the landscapes by staying on trails and please respect local communities and their heritage.

Travel: We make sure that the cars for our tours have regular maintenance for the safety of our clients and the maximum efficiency for the vehicles for a better environment

Water: Please see our policy for our clients in Hotels.

Waste: Jordan Select Tours does recycle in the office and we don't use plastic bottled water, instead we have filtered water and no plastic cups just normal glasses for drinking. We use old paper for receiving faxes and energy light bulb.

Resource use: We use for our office non chlorine bleached paper.

Jordan Select Tours has long term relationships with local suppliers and service providers. Our tour guides are local and our drivers for tours too. We have long term relationships with the desert camps we use for our clients in Wadi Rum.

Measurement of outcomes

Jordan Select Tours has continued its tree planting efforts, and our tree planting count has reached over 3500. We started planting trees in Gilead in the north of Amman a few years back and are proud that we are now the custodians of one of Jordan's youngest forests. By travelling with us you can help Jordan become a greener place.

Working closely with local partners and suppliers who have the same vision and commitment to environmentally and socially responsible operations: We believe in responsible tourism, promoting low impact environmentally sensitive operations to maximise visitors' enjoyment, understanding, awareness of wildlife and landscapes, and due respect to local communities and their heritage.

Future Actions Plan:

- Reduce energy we use in our office (instead of turning the air condition on we open the window for a fresh breeze, we turn lights off and leave blinds up for natural day light! We turn all computers off when we go home after work. This is happening now and will continue for the daily basis.
- Using a new method of Reduce, Reuse, Recycle. reduce waste by choosing reusable products instead of disposables, buying products with minimal packaging .
- Switch to compact florescent or LED light bulbs. While these cost more, they are also longer lasting than conventional light bulbs, and they use only one-quarter of the energy.
- We recycle our waste (plastic bottles and paper) This is happening now and will continue for the daily basis.
- Encourage our clients to keep the environment clean and to respect to local communities and their heritage (our tour guides mention this on beginning of each

tour).
