Message from PepsiCo’s Chairman & Chief Executive Officer

PepsiCo is proud to support the United Nations Global Compact and its 10 Guiding Principles in the areas of human rights, labor standards, the environment and anti-corruption.

Since 2006, PepsiCo has been committed to delivering superior financial performance in a way that is sustainable over time and responsive to the needs of our communities. Not only is this approach the right one for our society and our environment, but we believe it is a business imperative for any successful global corporation in the 21st century. In 2018, we strengthened this commitment to long-term sustainability and meeting the needs of our communities by adding ambitious new goals focused on improving the environmental sustainability of our packaging.

In the year ahead, PepsiCo will further advance our commitment to sustainability by pursuing our new vision for Winning with Purpose. And we will continue to emphasize community development and reducing our environmental footprint as we work to help build a more sustainable food system. Our goals are ambitious, science-based, and complementary to our business, while contributing positively to society.

We have closely mapped our plans to the United Nations 2030 Sustainable Development Goals and are working to make valuable contributions to this shared agenda. We have already achieved meaningful progress on many of our goals, and we have set the stage for continued success long into the future.

Our annual Communication on Progress demonstrates our ongoing commitment to the Global Compact. Thank you for the opportunity to participate once again.

Ramon Laguarta
**UNGC Principles**

As a signatory of the United Nations Global Compact (UNGC), PepsiCo is committed to supporting the Compact’s principles in our everyday business operations. We consider our [Sustainability Report](#) and [A-Z Sustainability Topics](#), both of which are available on PepsiCo.com, to be our primary sources for the Communication on Progress (COP) to the UN Global Compact. The following provides further relevant information on each of the 10 UNGC Guiding Principles.

**Human rights**

1. **Businesses should support and respect the protection of internationally proclaimed human rights;**
   and
2. **Make sure that they are not complicit in human rights abuses.**

At PepsiCo, we aim to ensure that all rights holders that might be affected by PepsiCo, either directly or through our value chain, can enjoy the human rights described in the International Bill of Human Rights and the ILO Declaration of Fundamental Principles and Rights at Work.

Our approach is guided by the UN Guiding Principles on Business and Human Rights, and we are committed to respecting the human rights of all workers and local communities throughout our operations and value chain.

Our commitment is articulated in our Human Rights Workplace Policy, Human Rights Statement and Salient Issues Statement, Code of Conduct, Supplier Code of Conduct, and other relevant policies such as those on land rights, deforestation, and sustainable agriculture. Potential violations of our policies can be reported anonymously through a confidential Speak Up program, which is available worldwide on a 24/7 basis.

We are a charter endorser of the Sullivan Principles, whose goals are to advance economic, social and political justice by companies where they do business, to support human rights and to encourage equal opportunity at all levels of employment. In 2006, PepsiCo certified to requesting entities that its policies reflect the fair employment standards embodied in the MacBride Principles of fair employment.

Labor standards

3. Businesses should uphold the freedom of association and the effective recognition of the right to collective bargaining;
4. The elimination of all forms of forced and compulsory labor;
5. The effective abolition of child labor; and
6. The elimination of discrimination in respect of employment and occupation.

Our first priority as a company is the safety, health and well-being of our associates around the world. We provide competitive pay and a full range of benefits to help associates live healthier, balance work and family, and build a secure financial future. We are also continually working across our businesses to prevent occupational injuries and illnesses, striving for an incident-free workplace. We deal fairly and honestly with our associates regarding wages, benefits and other conditions of employment, and recognize our associates’ right to freedom of association. We do not use compulsory or child labor. We do not tolerate discrimination, and we work to ensure equal opportunity for all associates. We are committed to compliance with all applicable laws, regulations and other employment standards, wherever we operate or work. We encourage our partners, suppliers, contractors and vendors to support these policies, and we place substantial value on working with others who share our commitment to human rights.

Environment

7. Businesses should support a precautionary approach to environmental challenges;
8. Undertake initiatives to promote greater environmental responsibility; and

PepsiCo is fully committed to protecting the earth’s natural resources through innovation and the efficient use of land, water, packaging, and energy in all our operations. We rely on the planet’s natural resources every day, and as we grow our business in developed countries and expand in developing and emerging countries, we strive to use only methods and tools that are scientifically proven, socially responsible and economically sound. Our environmental sustainability efforts are primarily focused on agriculture, water, packaging and climate change - areas that are critical to our business and where we believe we can make the biggest impact. We are delivering impact through programs such as PepsiCo’s Sustainable Farming Program, which advances positive environmental outcomes in areas including water, energy and waste with many of the farmers from which we source. We are also focused on bringing our company’s best thinking together to address
key environmental issues. For example, PepsiCo maintains a cross-functional Packaging Committee within the company to ensure that comprehensive and thoughtful approaches and solutions are developed to maximize impact on this globally critical issue.

Anti-corruption

10. Businesses should work against corruption in all its forms, including extortion and bribery.

PepsiCo has strict corporate standards that govern our operations and ensure accountability for our actions. We believe that operating ethically and with integrity means compliance with the laws and regulations that impact our business worldwide. It also means adhering closely to our policies, including a Global Anti-Bribery Compliance Policy, Global Code of Conduct, and Supplier Code of Conduct. Internal controls, systems and processes are in place to raise awareness and reduce the risk of corruption and bribery and to ensure our associates understand the importance of conducting PepsiCo business in compliance with the laws and regulations of the countries where we operate. In addition, in 2019, PepsiCo introduced seven new leadership behaviors for our global workforce to follow, one of which is to act with integrity, redoubling the commitment PepsiCo has made in this area for many years prior.
