

UIPM USA (Universal Institute of Professional Management) Communication of Engagement (CoE) Report January 2019-January 2020

Statement from chair of UIPM USA

UIPM USA wishes to declare its continuous support to the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti Corruption. In this first annual Communication on Progress, we describe our daily operations, which integrate these Global Compact principles into our strategy and culture. UIPM USA is committed to The United Nations' Global Compact agenda, to regular Communication of Engagement (CoE) reporting and to the UN Principles for responsible education management.

It is my great privilege to present to our diverse stakeholders, the first Communication of Engagement (CoE) report highlighting strides made since joining the United Nations Global Compact initiative. Sustainability is a global concern for all organizations and on behalf of the UIPM USA, I laud all efforts; governance and/or policy matters made to ensure the fruition of the few initiatives carried out at UIPM in the last one years.

Sincerely
Prof. Dr. Jasbir Singh

Policy frameworks

The leadership of the institution takes cognizance of the fact that true sustainability must be hinged on sound policy and governance frameworks. In this respect, the Council has approved policies drafted by the Management Board to reinforce UIPM's commitment in upholding tenets of the UN Global Compact Initiative. Key among the policies approved is the UIPM.

University Environmental Policy (2019) that outlines key commitments, over and above legal compliance, to incorporate sustainability in all business operations and demonstrate that environmental sustainability is one of our key priorities.

The University Council has also approved other policies that serve to enhance staff working conditions such as Disability Equality policy, Sexual Harassment policy, Occupational Safety & Health policy and policy on Conflict of Interest among others. The management is committed to inculcating an organizational culture that will institutionalize ways that uphold human rights and environmental concerns among staff and students.

Independent Study

An Independent Study is a form of education offered by UIPM. It is sometimes referred to as a directed study and is an educational activity undertaken by an individual with little to no supervision. Typically a student and professor or teacher agree upon a topic for the student to research with guidance from the instructor for an agreed-upon amount of credits. Independent studies provide a way for well-motivated students to pursue a topic of interest that does not necessarily fit into a traditional academic curriculum. They are a way for students to learn specialized material or gain research experience.

Aims to create professional scholars in their respective fields. And can become a professional leadership in managing organizations, companies, etc.

Essentially the definition of management is to regulate activities or a movement aimed at achieving harmonization. Because everything without management will never get a harmonious result, automatically gets a significant success. UIPM has unlimited study programs, because UIPM teaches management science that is universal, its existence is in all faculties.

UIPM concentrates on professional management education, because this education is the center in managing and creating success in all fields of science and aspects of life. Professional management is a field of science that is needed by all disciplines. This means that management knowledge exists in every field of science. Management science is human nature.

Journal UIPM USA : International Business Law in the Internet Era (online)

The development of the internet is very fast. So it takes a legal umbrella and mutual agreement between countries / nations to be able to overcome the problems of business law if there is a problem in doing business between nations (international). The mode of fraud in online business is very lively and growing, here in need of an international business legal umbrella, so that perpetrators of these crimes can be ensnared in law and businesses can do business comfortably with the existence of legal certainty.[more](#)
