

Ofício N° 038/2019

Fazenda Rio Grande, 25 de Fevereiro de 2019.

Mr. Secretary General,

I would like to confirm that the Fazenda Rio Grande Municipal Government supports the Ten Principles of the Global Compact, related to Human Rights, Labor Rights, Protection of the Environment and Fight against Corruption. With this commitment, we express our intention to support and disseminate such principles. We are committed to making efforts to publicly disclose this commitment to our employees, partners, customers, and the general public.

We also commit to participating and engaging with the Global Compact in the following ways:

- Create a dedicated sustainability plan that incorporates the ecological, economic, political and cultural dimensions of the region's sustainability.
- Encourage companies and other organizations that interact with the City Hall to participate in the UN Global Compact.
- Partner with support companies and other stakeholders as they implement sustainability initiatives that benefit the city and large community.
- Engage with Global Compact Local Networks

We recognize that a key requirement for participation in the Global Compact is the presentation of an Engagement Communication (COE), which describes our efforts in implementing the ten principles. We support accountability and transparency of information, and therefore commit ourselves to submit a progress report after two years of adherence to the Global Compact and then biennially in accordance with the Global Compact's COE policy.

Graciously,

enciosamente,

**Marcio Claudio Wozniack**  
Prefeito de Fazenda Rio Grande

H.E. Antônio Guterres
