Dear Mr. Secretary-General,

I am pleased to confirm that Thermo Fisher Scientific supports the Ten Principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption.

The UN Global Compact's vision for a better world closely aligns with our mission to enable our customers to make the world healthier, cleaner and safer. With this communication, we express our intent to implement the Ten Principles as part of our strategy, culture and day-to-day operations of our company. We also commit to engaging in collaborative projects that advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Thermo Fisher Scientific will make a clear statement of this commitment to our stakeholders and the general public.

Thermo Fisher Scientific supports public accountability and transparency. As part of our annual corporate social responsibility reporting, we will submit a Communication on Progress (COP) that expresses our continued support and commitment to the UN Global Compact and its principles, describes our actions and efforts to implement the Ten Principles, and measures our outcomes. We commit to report on our progress within one year of joining the UN Global Compact and annually thereafter according to the UN Global Compact COP policy.

Sincerely,

Marc N. Casper
President and CEO
