Dear Mr. Secretary-General,

I am pleased to confirm that Sky supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to implement those principles. We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Sky will make a clear statement of this commitment to our stakeholders and the general public.

We are committed to taking action on climate change and have been a carbon neutral company for over 12 years. We are now setting targets to reach net zero carbon across our value chain before 2050, aligned with limiting global temperature rise to 1.5°C. We are committed to supporting the United Nations Global Compact's Business Ambition for 1.5°C.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.

Yours sincerely,

Jeremy Darroch
Group Chief Executive
