Monday, July 8, 2020

Dear Secretary General,

I am pleased to confirm that the Eboko Foundation supports the ten principles of the United Nations Global Compact in the areas of human rights, labor, the environment, and the fight against corruption. With this commitment, we express our intention to support the Global Compact for the advancement of these principles and will make a clear statement of this commitment to our stakeholders and the general public.

We commit to participate with the United Nations Global Compact in the integration of the 10 principles and in the support of all the specialized working groups created by the United Nations Global Compact that our organization can join at a later date. We therefore undertake to publish our progress, in accordance with the guidelines for communicating on the progress of the Global Compact. This COE will contain two elements:

1. The signed renewal of the president for the Global Compact and its principles (document separate from this letter),
2. A description of the actions carried out or being carried out by our organization on the environment, rights of human, peace, and security, corruption.

We recognize that a key requirement to participate in the Global Compact is the submission of a Commitment Communication (COE) that describes our organization's efforts to support the implementation of the ten principles and engage with the Global Compact. We support public accountability and transparency, and therefore commit to reporting on progress within two years of joining the Global Compact and every two years thereafter in accordance with the COE policy of the Global Compact.

Sincerely yours,

Vanessa MAVILA
President Fondation Eboko
