

Wisconsin State Fair EXPO Hall

Electrical Guidelines

The Green cord in your booth has three outlets. That is considered to be the outlet in your booth. You may plug an extension cord or plug strip into each outlet. You are also allowed to plug a plug strip into the end of an extension cord. You are only allowed to plug devices into a plug strip. Not another extension cord, multi tap or plug strip. All electrical items in your booth must comply with all National and State codes.

You are not allowed to plug a plug strip or multi tap into a plug strip or multi tap outlet.

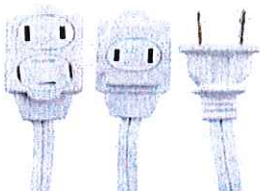

Multi Tap Outlet

You are not allowed to plug an extension cord into an extension cord, a plug strip or multi tap outlet.

You are not allowed to use ungrounded cords

Halogen lights are not allowed. They are a hazard to people and property
