

UNIVERSITY OF WASHINGTON MASTER PLAN SEATTLE CAMPUS

Approved Compiled Plan
January 2003

UNIVERSITY OF WASHINGTON

OFFICE OF REGIONAL AFFAIRS
Theresa Doherty, Assistant Vice President

February 2003

To All Interested Agencies and Individuals:

Enclosed is a copy of the Final Compiled Master Plan for the Seattle Campus of the University of Washington. This Master Plan was approved by the City Council in Council Bill 114424, Council File No. 304650, on December 16, 2002, and signed by Mayor Nickels on December 20, 2003. It was then adopted by the University of Washington Board of Regents on January 17, 2003, and became effective on January 19, 2003. This Master Plan will guide development of the Seattle Campus, building on and replacing the 1992 General Physical Development Plan, extending the continuity of planning developed over the last century. It will remain in effect until the three million gross square feet approved under its provision are constructed or a new Master Plan is adopted by the Board of Regents.

The Final Compiled Master Plan can be viewed on line at:
www.washington.edu/community/cmp.

Sincerely,

Theresa Doherty
Assistant Vice President for Regional Affairs
