Project Goals

- Create a hub for the Health Science education and training that fosters interaction, collaboration, and creativity for students and the health professional community.

- Build a centrally located Health Sciences Education Building utilizing the unique adjacencies of research, academic, and clinical programs to train future health professionals in support of affordable, accessible, and high quality 21st Century health care.

- Create a Health Sciences Education Building with flexible spaces, modern technologies, and a broad array of environments that adapt to the changing pedagogical needs of the Health Sciences and enable active and team-based learning.

- Maintain the outstanding performance of UW’s Health Science schools by attracting and retaining the best health and health care professionals to serve the State of Washington.

- Design the building to enable the Health Sciences campus to support the goals of the 2018 Campus Master Plan.
Building Footprint
What is “IN?”

- Freestanding building
- Big & Small program organization
- Investment in a Student Heart + Culture of Care
- Intentional Transparency
- Legible Vertical Circulation
- CLT floors and roof
- 4 stories + basement
- High performance envelope
Active Edge
Student Heart
What is “IN?”

- Outdoor rooms supporting an “active village”
- New streetscape on south side of Pacific Street
- Simple, high-quality paving, site walls, and furnishings
- Robust trees and planting (including soil and irrigation)
“ahhhhhhh...” moments + decision nodes
