Special Seminar
“Antimicrobial Resistance Seminar”

Andreza Martins,
Dr. Martins is a Visiting Scholar from the Schools of Public Health and Medicine at the University of Washington. A Pharmacist, Microbiologist and Adjunct Professor at Department of Microbiology, Immunology, and Parasitology, UFRGS, Porto Alegre, Brazil, she is currently counselor and principal investigator of resistant genes research and bioinformatics at the National Institute of Antimicrobial Resistance (INPRA-Brasil). She will share with us her new discoveries through the One Health approach for Antimicrobial (AMR) Resistance in Humans, Animals, and the Environment. This Special Seminar is part of an international collaborative interdisciplinary program between Brazil, UW COHR, DCM and CMiST.

Monday, January 27th, 2020
12:00 p.m. – 1:00 p.m.
HSB Room I-462
