Profile

Name	University of Washington
Year of Foundation	1861
Organisation Logo	
Address	1410 NE Campus Parkway, , , Seattle, Washington, 98195-5852
Telephone	+1 206 543 9686
Country	United States
Currency	USD
Website	http://www.washington.edu/
Description	<p>The UW is one of the world's preeminent public universities. Our impact on individuals, our region and the world is profound — whether we are launching young people into a boundless future or confronting the grand challenges of our time through undaunted research and scholarship. The UW educates more than 54,000 students annually. We turn ideas into impact and transform lives and our world. For more about our impact, visit our news site, UW Today (http://www.uw.edu/news/). So what defines our students, faculty and community members? Above all, it's our belief in possibility and our unshakable optimism. It's a connection to others near and far. It's a hunger that pushes us to tackle challenges and pursue progress. It's the conviction that together we can create a world of good. Join us on the journey. http://www.washington.edu/about/ Vision Statement The University of Washington educates a diverse student body to become responsible global citizens and future leaders through a challenging learning environment informed by cutting-edge scholarship. Discovery is at the heart of our university. We discover timely solutions to the world's most complex problems and enrich the lives of people throughout our community, the state of Washington, the nation and the world. http://www.washington.edu/about/visionvalues/</p>

Mission Statement (in English)

Role and Mission of the University Founded 4 November 1861, the University of Washington is one of the oldest state-supported institutions of higher education on the Pacific coast. The University is comprised of three campuses: the Seattle campus is made up of sixteen schools and colleges whose faculty offer educational opportunities to students ranging from first-year undergraduates through doctoral-level candidates; the Bothell and Tacoma campuses, each developing a distinctive identity and undergoing rapid growth, offer diverse programs to undergraduates and to graduate students. The primary mission of the University of Washington is the preservation, advancement, and dissemination of knowledge. The University preserves knowledge through its libraries and collections, its courses, and the scholarship of its faculty. It advances new knowledge through many forms of research, inquiry and discussion; and disseminates it through the classroom and the laboratory, scholarly exchanges, creative practice, international education, and public service. As one of the nation's outstanding teaching and research institutions, the University is committed to maintaining an environment for objectivity and imaginative inquiry and for the original scholarship and research that ensure the production of new knowledge in the free exchange of facts, theories, and ideas. To promote their capacity to make humane and informed decisions, the University fosters an environment in which its students can develop mature and independent judgment and an appreciation of the range and diversity of human achievement. The University cultivates in its students both critical thinking and the effective articulation of that thinking. As an integral part of a large and diverse community, the University seeks broad representation of and encourages sustained participation in that community by its students, its faculty, and its staff. It serves both non-traditional and traditional students. Through its three-campus system and through educational outreach, evening degree, and distance learning, it extends educational opportunities to many who would not otherwise have access to them. The academic core of the University of Washington Seattle campus is its College of Arts and Sciences; the teaching and research of the University's many professional schools provide essential complements to these programs in the arts, humanities, social sciences, and natural and mathematical sciences. Programs in law, medicine, forest resources, oceanography and fisheries, library science, and aeronautics are offered exclusively (in accord with state law) by the University of Washington. In addition, the University of Washington has assumed primary responsibility for the health science fields of dentistry and public health, and offers education and training in medicine for a multi-state region of the Pacific Northwest and Alaska. The schools and colleges of built environments, business, education, engineering, environment, information, nursing, pharmacy, public affairs, and social work have a long tradition of educating students for service to the region and the nation. These schools and colleges make indispensable contributions to the state and, with the rest of the University, share a long tradition of educating undergraduate and graduate students toward achieving an excellence that well serves the state, the region, and the nation.

Caveats

Year	Statement
2016	We are not able to report institutional income or the amount of research awards from industry and commerce by subcategory.
2016	Some students have multiple majors and may earn degrees in multiple fields. For the purposes of reporting student FTE and degrees awarded by subcategory, we classify the student according to their first listed major (the order in which a student's majors are listed in our database is not consistent and does not signify any "ranking" among majors). This avoids double-counting students and degrees across subcategories. However, it should be noted that we have placed each multiple-major student into only one subcategory, so that both student FTE and number of degrees awarded will somewhat understate the number of students in a given subcategory.

Key statistics and ratios

	2016
Number of entries which are required for your institution to be eligible for the Overall Rankings, but which have been marked as unavailable or withheld	0
Total institutional income per member of academic staff (FTE)	1246765
Research income per member of academic staff (FTE)	401990
Research income from industry and commerce per member of academic staff (FTE)	22293
Total institutional income per student	110477
Research income per student	35621
Research income from industry and commerce per student	1975
Percentage of academic staff of international/overseas origin	18%
Percentage of academic staff that are female	42%
Percentage of students of international/overseas origin	16%
Percentage of students that are female	53%
Student to academic staff ratio	11.3 to 1
