<b>Importance</b>											
1	Does this project improve the University's academic or research excellence?										
2	Does it improve the UW's competitiveness by: - helping to attract the best students, faculty, and staff; and/or - increasing and diversifying funding?										
3	Does it enhance interdisciplinary collaboration in research, instruction, or other University efforts across organizational, regional, or global boundaries?										
4	Does it improve the personal productivity or experience of students, faculty, or staff?										
5	Does it benefit a large number of UW students, faculty, or staff?										
6	Does it improve organizational efficiency or reduce overall costs for the University (and not by shifting costs to units)?										
7	Does it help sustain and strengthen core IT operations, mitigate operational risk, or ensure key services are resilient?										
8	Does this project address compliance, financial, or information security and privacy risk?										
<i>Total Importance Score</i>											
<i>Normalized on scale of 100</i>
