

University of Washington
FACULTY SENATE
Box 351271

Class C Bulletin No. 496

**Resolution of Appreciation
Faculty Senate Chair Bruce Balick
May 20, 2010**

Whereas:
in thirty-five years on the faculty,
Bruce has chaired Astronomy,
served on the Board of ARC,¹
and helped design WFC3,²
which was installed in the HST,³

And whereas:
Bruce has maintained civility
through long meetings of the SEC,⁴
discussions with the Regency,⁵
a few ripostes with the assistant AG,⁶
and Senate reform to reduce ennui,

And whereas:
Bruce's heroic astronomy
allows us to see the next galaxy;
when it comes to the university,
and someone asks what is to be,
we're *all* mystified by 2Y-2D!⁷

And whereas:
our future rides on ABB,⁸
some sort of salary policy,
and a new presidency,
we urge our chair-man not to flee:
we need his work on SCPB,⁹

Therefore, be it resolved,
on this day in May,¹⁰
that all the Senate does join to pay
respect to Bruce, and to say
"For us, it is Bruce Balick Day!"

Approved by:
Faculty Senate
