Meeting Synopsis

1. Call to order
2. Review and approval of the minutes from November 15, 2018
3. University Health and Safety Committee update (Lesley Colby)
4. Health Sciences Education Building, HSEB, update (Jaclynn Eckhardt and Jeannie Natta)
5. Good of the Order
6. Adjourn

1. Call to order

The meeting was called to order at 10:00 a.m.

2. Review and approval of the minutes from November 15, 2018

The minutes from November 15, 2018 were approved as written.

3. University Health and Safety Committee update (Lesley Colby)

Lesley Colby, Faculty Senate Liaison to the University Health and Safety Committee, provided an update of the University Health and Safety Committee (Exhibit 1).

A member asked how proactive the committee is at finding and resolving issues. Colby responded that the committee is engaged with the community and responds to programmatic issues. The council discussed some communication/outreach gaps in how immediate issues are resolved. A member noted that some reported issues are resolved effectively while others are addressed but not effectively. The member suggested that feedback should be sought from those who report initial issues.

A member asked if we compare our safety record compared to other institutions. Colby responded that the UW is average compared to peer institutions.

A member asked if there are any “notoriously sick” buildings. McCormick responded that there are buildings that have recurring mold issues due to water. There is not a “notoriously sick” building on campus, but this designation refers to issues with the original building materials.

4. Health Sciences Education Building, HSEB, update (Jaclynn Eckhardt and Jeannie Natta)

Jaclynn Eckhardt, Account Manager of Capital & Space Management, and Jeannie Natta, Project Manager of Major Projects, provided an update of the Health Sciences Education Building (HSEB) (Exhibit 2).
During the presentation, a member asked for a definition of “hoteling areas” which was used to describe some space in the HSEB. Eckhart responded that this refers to open (temporary) desk space dedicated for faculty members.

A member asked if it was known whether the pedestrian bridge over NE Pacific Street would be impacted during construction of the HSEB. Natta responded that it is not known at this time, but the building will cause a disruption. A member asked if there are been considerations around lidding NE Pacific Street. Eckhart responded that has been considered but not in the current plan.

A member asked if there were dedicated lecture halls in this building. Health Sciences requested that the space incorporate more active learning spaces over lecturer spaces. Lecture spaces will remain in the T-Wing, but the T-wing is also schedules to undergo a redesign to include more breakout areas near lecture spaces.

The council discussed some of the constraints involved with constructing HSEB. Natta noted that, ideally, the I Wing would be removed to make space for the HSEB, but removing the I Wing is too expensive. The project design is also mindful to the newly built greenhouses and will not exceed a height that obscures sunlight.

5. Good of the Order

Nothing was stated.

6. Adjourn

The meeting was adjourned at 11:00 a.m.

Minutes by Lauren Hatchett, lehatch@uw.edu, council analyst

Present: Faculty: Rich Christie, Ashley Emery, Murray Maitland, Giovanni Migliaccio, Laura Little, Bill Rorabaugh, Bill Erdly  
President’s designee: Lou Cariello  
Ex-officio reps: Angelia Miranda, Bruce Balick, John Carroll  
Guests: Leslie Colby, Mike McCormick, Jaclynn Eckhardt, Jeannie Natta, Yura Kit

Absent: Faculty: Ann Marie Borys (Chair), Jan Whittington, Ann Mescher  
Ex-officio reps: JoAnn Taricani, Alena Wolotira, David Tomporowski

REPORT:
FACULTY SENATE LIAISON TO THE
UNIVERSITY-WIDE HEALTH AND
SAFETY COMMITTEE

Lesley A. Colby, Associate Professor, DCM
Presentation to FCUFS
01/17/19
Committee Responsibilities

- Coordinate information from the organizational committees to provide consistent campus-wide strategies for health and safety activities and target concerns for organizational committee actions.

- Review occupational injuries, illnesses, and incidents experienced by University employees.

- Recommend health and safety strategies, policies, and programs to the EH&S Director.

- Serve as a contact for employees to help respond to and address employee health and safety concerns.

- Help EH&S in motivating the campus community to create and maintain a safe and healthful environment.

- Communicate back to the individual organizational Health and Safety Committees on University health and safety issues.
Committee Membership

- Elected and Appointed
  - Representatives of 10 Organizational Health and Safety Committees
  - Faculty Senate Representative
  - Associated UW Students Representative

- Ex officio
  - Risk Services
  - EH&S
  - Attorney General’s Office
  - Capital Planning and Development
  - Facilities Services
  - Transportation Services
  - UW Emergency Management
  - UW Police Department
  - UW Employee Unions
  - UW Student Unions
10 Organizational Health and Safety Committees

1. Administrative and Other Academic Programs
2. Finance and Administration
3. Student Life
4. Health Sciences
5. UW Medicine
6. College of Arts and Sciences
7. UW Bothell
8. UW Tacoma
9. College of Engineering
10. College of the Environment
10 Organizational Health and Safety Committees

- Supported by executive leadership (Executive Sponsor)
- Elected and management-appointed representatives
  - 2 year terms
- Meets monthly to discuss health and safety related topics and concerns
10 Organizational
Health and Safety Committees

- Responsibilities
  - Reviewing and evaluating *accident investigation reports*
  - Reviewing and evaluating *departmental health and safety plans*
  - Reviewing and discussing *health and safety suggestions from employees*
  - Providing feedback on *safety-related material provided by EH&S*
  - Recommending actions to *resolve health and safety concerns*
U-Wide Committee Meeting Organization

- Organizational Group Reports
  - Overview of actions, decisions, or topics from organizational HSC meeting
  - Overview of health and safety concerns discussed
  - Brief updates on new health and safety initiatives

- EH&S Reports

- Labor & Industry Updates

- Union and Ex Officio Reports
Recent Meeting Discussions

- Various accidents and incidents
  - Bee stings
  - Lifting injuries (safe patient handling)
  - Increased incidence of head injuries in dance and drama
  - Building mold complaints
  - Contractor not adhering to construction regulations

- Root cause analysis course

- Employee flu vaccinations

- Bike and scooter share programs

- 2018 Workers Compensation Report

- Husky Ready Program

- Husky PAUSE Program

- ‘Stop the Bleed’ Program

- Safety initiative sent to Faculty Senate

- EH&S hires and reorganization
Laboratory Safety Initiative

- 2-year program
- Objective: To build a stronger culture of safety in university research laboratories
- Goals
  - Identify and overcome barriers to safety
  - Develop and share best practices
  - Streamline oversight processes to reduce administrative burden
  - Lead to the development and implementation of services, approaches and tools that significantly improve laboratory and chemical safety throughout the University
- Currently seeking continued funding

https://www.ehs.washington.edu/research-lab/laboratory-safety-initiative
Accident Prevention Plan

- Applies to all schools, departments, units, or organizations excluding UWMC and HMC
- Purpose: to cover occupational hazards that generally apply to University employees
- **Can** replace Departmental Health and Safety Plans
Accident Prevention Plan

■ Does NOT replace
  - Fire Safety and Evacuation Plan
  - Laboratory Chemical Hygiene Plan
  - Biosafety Manuals
  - Training Records
  - Radiation Safety Manual
  - Administrative Policy Statements
  - Department-specific SOPs

■ Instructional Video
  - https://www.youtube.com/watch?v=DneMkAsLSWk
Accident Prevention Plan

- Document sections
  - Purpose, Scope, and Responsibilities
  - Health and Safety Resources
  - New Employee Health and Safety Orientation
  - Reporting Accidents, Injuries, Illnesses, and Concerns
  - Emergencies
  - Recognized Safety Hazards
  - Identifying and Mitigating Hazards Beyond this Plan
  - Responsibilities beyond this APP

Health Sciences Education Building

Faculty Council on University Facilities and Services (FCUFS)
January 17, 2019

“It is the human experience, the connection between peers, between students and faculty, and across disciplines that promotes deep learning.”
INTRODUCTIONS

JACLYNN ECKHARDT, AIA
Account Manager
Capital & Space Management
UW Facilities
jaclynn@uw.edu

JEANIE NATTA
Project Manager
Major Projects
UW Facilities
jnatta@uw.edu

YURA KIT
Project Integrator
Major Projects
UW Facilities

PROJECT GOAL + OBJECTIVES

Create a Health Sciences Education Building with flexible spaces, modern technologies, and a broad array of environments that adapt to the changing pedagogical needs of the Health Sciences and enable active and team-based learning.

> Create a hub for the Health Science education and training that fosters interaction, collaboration, and creativity for students and the health professional community.

> Build a centrally located Health Sciences Education Building utilizing the unique adjacencies of research, academic, and clinical programs to train future health professionals in support of affordable, accessible, and high quality 21st Century health care.

> Maintain the outstanding performance of UW’s Health Science schools by attracting and retaining the best health and health care professionals to serve the State of Washington.

> Design the building to enable the Health Sciences campus to support the goals of the 2018 Campus Master Plan.
Health Sciences Schools

- School of Dentistry
- School of Medicine
- School of Nursing
- School of Pharmacy
- School of Public Health
- School of Social Work

- Health Sciences Administration
SCOPE

BUILDING PROGRAM (100K GSF)

The project envisions a building that meets the future instructional needs of the Health Sciences:

- **Flexible learning spaces**
  - Active learning facilities to support core active, didactic and hands-on skills-based learning environments
  - Informal learning and breakout spaces for students
  - Simulation labs
  - Anatomy lab

- **Support**
  - Health Sciences Library functions
  - Faculty hoteling areas
  - Building management
## SCHEDULE & BUDGET

**Current Funding:**
- $10M Design

**Future Funding:**
- $70M request (2019-21 State Biennium)
- $10M (Anticipated donor funding)

**Total Project Budget:** $90M
2018 Campus Master Plan South Campus Guiding Principles

• Increase development capacity, and create a state-of-the-art health sciences complex and academic medical center.

• Create an inviting, functional and attractive public realm.

• Reduce the monolithic character of development in a manner that promotes school identity, orientation and connectivity.

• Leverage and celebrate its prime location on the waterfront with a shared campus green, continuous waterfront trail, courtyards and upper terraces.

• Improve access to West, Central, and East Campus through enhanced pedestrian connections and a continuous waterfront trail.
