1. Chair's comments

Borys, the chair, notified the council that she attended the Architectural Commission meeting where the Health Sciences Building was discussed. Additionally, she reported that the University Architect search is winding down.

Mike McCormick will attend the next FCUFS meeting to provide a Capital Planning update.

2. UW Transportation Services fees discussion – Lou Cariello

Lou Cariello, Vice President of Facilities, presented update on UW Parking, U-PASS, and citation rates for FY20 (Exhibit 1).

Anne Eskridge, Director of Transportation Services, noted that the University Transportation Commission endorsed a 10 percent increase for parking and an 8 percent increase for the U-PASS based on the information that was presented to them. However, the administration decided against raising the UPASS rate and will instead increase parking by 12 percent. The intention is to decrease single occupancy vehicle (SOV) ridership. Cariello commented that the rate increases (for Parking, U-PASS, and citations) will continue to increase moving forward. Increases in rates are intended to keep up with the cost of living and to lower the SOV rate.

A member asked if there was a plan for reducing parking spaces on campus. The Master Plan envisions that some parking structures will become new building sites. Eskridge commented that the University will not provide extensive funding to parking structures that are scheduled to be decommissioned.

3. Gates Computer Science and Engineering building tour – Tracy Erbeck and Troy Stahlecker

The council left the Allen Center and toured the new Bill and Melinda Gates Center for Computer Science and Engineering.
