

## Connect to Facebook

- Open the VidBuilderFX app on your computer and login to your account of VidBuilderFX.

- A dialogue box will automatically get generated asking for the credentials of your Facebook account.

- Fill all your Facebook account credentials.

- Click on 'Login' button.

- You are successfully connected with your Facebook account.

You can connect with only one Facebook account at once. If you want to login with another account, there is an option to logout your current account and only then you can login with another account.
