

To activate the ARRIRAW Upgrade for Production Use on the Gemini 4:4:4:

1. Purchase the ARRIRAW Upgrade from your local Dealer.
2. On the Gemini, go to Gemini > Set > Keys > Raw
3. With an SSD inserted into Slot 1, enter value "10000000" (eight-digit) for the Raw Key; press "OK".
4. A Unit ID File is written to the SSD. Using the provided transfer station, save this file to your computer.
5. Upon receipt of the ARRIRAW Upgrade order, Convergent Design will contact you to obtain necessary contact information and the Unit ID File. This information is used to process your unique Activation Key.

The ARRIRAW Activation Key will be provided to be entered into the Raw Key field and activate the ARRIRAW feature on the Gemini 4:4:4.

See the Gemini 4:4:4 User Manual for more information, including deactivating this feature.
