NA = Not Applicable = Program does not have at least one portfolio with sufficiently long performance in a minimum of four asset allocation categories under our ranking model.

The performance data underlying these rankings represents past performance and is not a guarantee of future performance. Current performance may be lower or higher than the performance data used. A plan portfolio's investment return and principal value will fluctuate so that an investor's shares or units, when redeemed, may be worth more or less than their original cost. Investors should carefully consider plan investment goals, risks, charges and expenses, by obtaining and reading the plan's official program description before investing. Investors should also consider whether their or their beneficiary's home state offers any tax or other benefits that are available for investments only in such state's 529 plan.
