

Moses: Trusting God in the Face of Temptation

Hebrews 11:24-27

I. Faith is first of all assurance that God's promises are true and supremely precious.

II. Faith is the assurance that the story God tells us is the One True Story; all other narratives are, at root, based in lies.

III. Faithful endurance and personal holiness flow, in part, from understanding our story and interpreting our experiences in light of God's greater story.

IV. The greatest temptations we face are often rooted in false stories we believe about God, the world, and ourselves.
