3D Book Cover Mockups

Choose from more than **200** styles,
including mockups for
single titles and book sets.

This 3D Book Cover Mockups Service will take your flat, 2D cover artwork and turn it into a range of stunning 3D advertising mockups to promote your:

Paperback Books

Hardback Books

eBooks

Audio Books

Book Sets

You must already have the necessary flat, 2D cover artwork. If you do not yet have a book cover, this can be provided for you through a separate service at <https://wmcpublishing.com>

Our service will provide you with a single mockup of your choice in not more than 5 days for just \$5. Should you require additional mockups then you can add a maximum of 10 additional mockups, at a cost of just \$2 each. If you require a faster turnaround then you can also add the option for delivery within 24 hours at a cost of \$5.

All mockups will be provided in transparent PNG format (so that you can put them onto any background) at a width of 1,000 px and a resolution of 300 dpi.

To place your order please simply indicate the mockups required on the order form using the reference shown under the appropriate illustration in this guide (e.g. soft01, hard01, kindle01 etc.). And don't forget to attach your 2D cover artwork!

IMPORTANT:

1. The mockups shown here include books of different thicknesses and this cannot be changed. It is important therefore that you choose mockups which best represent the thickness of your book.
2. You must supply the necessary cover artwork from which these mockups are created. Please look at each mockup carefully to see what is required - for example, just a front cover, a front cover and spine, a front cover, spine and back cover, internal book pages etc.

If you are not sure about anything please simply contact us and tell us what mockups you require. You will also need to provide us with your artwork, so that we can tell you whether you mockup(s) can be created, before you place your order.
