I am about to share with you some absolutely astounding information. It turns out that the exact day when reproductions of the arch that stood in front of the Temple of Baal are going to be erected in Times Square in New York City and in Trafalgar Square in London is also the exact day when a very important occult festival related to the worship of Baal begins.

April 19th is the first day of a 13 day period of time known as "the Blood Sacrifice to the Beast" that culminates on the high occult holy day of Beltane on May 1st. In some parts of the world, Beltane is much better known as "May Day", and it has been described as the "Illuminatis second most sacred holiday". As you will see below, we have indeed witnessed a disturbing series of "blood sacrifices" during the second half of April in recent years, and many people wonder if there is a connection.

April 19th is also known as the Feast of Moloch. If you are not familiar with "Moloch" or "Molech", it is an ancient Canaanite god that is repeatedly denounced in the Old Testament. Child sacrifice was a key feature of the worship of Moloch, and a giant statue of this pagan deity is set up at the Bohemian Grove in northern California every year.

Is it just a coincidence that reproductions of the arch that stood in front of the Temple of Baal in Palmyra, Syria are going up in New York and London on the precise day when the Feast of Moloch is celebrated and when the Blood Sacrifice to the Beast begins? The organization in charge of this "cultural project" is the Institute for Digital Archaeology. The following comes directly from their website...

On April 19, 2016, in cooperation with national and international cultural heritage preservation organizations, and in conjunction with World Heritage Week 2016, the Institute for Digital Archaeology will install a monumental scale reconstruction of Palmyras Triumphal Arch on Trafalgar Square. Through this project and others like it scheduled throughout 2016 in cities both inside and outside the Middle East the IDA seeks to provide an optimistic and constructive response to the ongoing threats to history and heritage that have captured headlines over the past year. Our aim is to highlight the potential for the triumph of human ingenuity over violence by offering innovative, technology-driven options for the stewardship of objects and architecture from our shared past.

Are we to believe that this date was chosen at random?

Is it just some sort of weird "accident" that the date they decided on begins a 13 day period of time which is exceedingly significant for the worship of Baal?...

"April 19 May 1 Blood Sacrifice To The Beast, a most critical 13-day period. Fire sacrifice is required on April 19.

April 19 is the first day of the 13-day Satanic ritual day relating to fire the fire god, Baal, or Molech/Nimrod (the Sun God), also known as the Roman god, Saturn (Satan/Devil). This day is a major human sacrifice day, demanding fire sacrifice with an emphasis on children. This day is one of the most important human sacrifice days, and as such, has had some very important historic events occur on this day."
