

Saving Nature and Improving Agriculture

Where does Nature's Wisdom Lie?

Emma Marris, Author, *Rambunctious Garden: Saving Nature in a Post-Wild World*

R. Ford Denison, Author, *Darwinian Agriculture: How Understanding Evolution Can Improve Agriculture*

The event will include two presentations, a panel discussion, and a poster session. Refreshments provided.

Join us **October 28th** in the CUB Jr. Ballroom on WSU Pullman Campus for presentations by authors Emma Marris and R. Ford Denison exploring ideas about nature, conservation, and agriculture. The event will also feature a panel discussion and a BIOAg poster session. All are welcome!
