

ATTACHMENT A & A1

OFFEROR'S INSTRUCTIONS TO COMPLETE PRICING SCHEDULE AND SPECIFICATIONS IN ATTACHMENT A AND ATTACHMENT A1

1. **ATTACHMENT A - Pricing Schedule and Specification** – Offerors will list a whole percentage of discount per each line item per Category for the basic equipment, and the attachments/implements under the **Percentage (%) Discount** section listed at the bottom of each page for equipment being offered for consideration on a brand or equal basis. Offerors will list the current Mfg. Suggested Price from their National Manufacturers Price List, using the whole percentage of discount offered under the Percentage (%) Discount and extend the Unit Price After Discount in the Appropriate Columns provided. Offerors will include any “exceptions” to the equipment specification that differ from the specifications listed in that Category. If an offeror is not proposing a percentage of discount for a line item within a category, the offeror will enter **n/o (for no offer)** in the MFG. List Price column.

Attachment A is being posted in VBO as a Word document, in order, for offerors to enter information electronically and save to their files and for the return with your Proposal.

2. **Attachment A1 – Excel Spreadsheet Pricing Schedule and Specifications** – Offerors are to transfer the same whole percentage of discount from ATTACHMENT A per each line item being proposed within each Category for the basic equipment only. ATTACHMENT A1, Spreadsheet Pricing Schedule & Specification has a formula imbedded that will calculate the Manufacturers List Price less the Percentage of Discount to match the Unit Price in Attachment A. The Excel Spreadsheet is “protected” and will only allow an offeror to key in their company name, Manufacturers List Price and the whole percentage of discount in the columns specified for each line item being offered. If an offeror is not proposing a percentage of discount for a line item within a category, the offeror will enter **n/o (for no offer)** in the Less % of Discount + column, the Unit Price After Discount column will then calculate and show #VALUE.

ATTACHMENT A:
