RE: RFP-NK-15-001

Ms. Kalen,

Thank you for the opportunity to provide a solution for the State of Colorado's Body Armor product needs. Safariland, LLC is the leading manufacturer of security products for law enforcement personnel around the world. For over fifty years, Safariland has been manufacturing and selling a broad range of high quality branded law enforcement equipment. Our products include ballistic resistant vests and tactical armor, safety holsters and duty gear, less-lethal munitions, batons, anti-riot products, personal protective gear, firearms accessories, body-worn cameras, Explosive Ordnance Disposal equipment, flotation and personal protective equipment, communications solutions, and a variety of crime scene related equipment.

At Safariland, we're dedicated to offering the best-in-class service, and have reach and access to advances in technology which we pass along to our customers. No other company can provide such rich heritage combined with the capabilities of the worlds' most distinguished brands, leading the way in every facet in the industry. United as The Safariland Group, our tradition of excellence allows us to continue forging new advances in the products that protect those who protect us all.

Safariland has the largest distribution network of ballistic armor in the United States. We have over 100 distributors nationwide in every state that allow us to service a contract of this size and scope. Additionally, we have a directly employed sales staff of twenty-six (26) professionals that allow us to provide contract support nationwide. Safariland's corporate headquarters are located in Jacksonville, FL and Ontario, CA.

ISO9001-2008 is used to establish a framework upon which The Sarfariland Group's (TSG) quality management system (QMS) is based. We are registered to the standard (certificate #10010022 QM08, valid until 20 Sept 2016) and consistently receive a minimal number of minor findings, which is indicative of a strong QMS. In addition, adherence to the ISO standard establishes a quality and business management culture and our registration to the standard give credence to our QMS. Twice annually the QMS is evaluated during a scheduled Management Review and all key performance metrics are included, i.e., delivery in full on time (DIFOT), process efficiency, quality, scrap/rework, etc. There are also quarterly meetings to discuss metrics.

Safariland LLC's disposal of body armor vests and other aramid personal protection textiles are contracted to Fiber Brokers International (<http://www.fiberbrokers.com/>). NASPO/ ValuePoint agencies may top to deliver used body labeled for disposal to Safariland Customer Care which will document the agency name, address, date of removal, and number of vests destroyed. Following documentation, transport of the vests will be arranged to the ISO 14000 verified recycling facility where the products are processed and rendered unusable in ballistic protection applications. A certificate of destruction is then issued documenting the disposal of the body armor.

Safariland's distributors will be primarily responsible for sizing, ensuring proper vest fit, and handling returns and warranty issues. All vest packages are custom fitted and officers are measured for their vest in both a standing and sitting position to ensure the garment does not ride up into the officer's neck from a sitting position. Safariland's distributors or, if necessary, Safariland's own personnel, will custom fit each officer using a Safariland specific sizing methodology ensuring proper and consistent fit. Safariland's distributors will be readily available to respond to requests for sizing within two (2) working days unless other arrangements are agreed to by the agency and distributor. After receipt of order Safariland will make delivery of vests within 45 days. Should any fitting problems occur, Safariland will correct the problem within 30 days of notification of the problem at no expense to the ordering agency.

Safariland offers a five (5) year warranty from the date of delivery and acceptance of its ballistic panel(s) portion of the body armor system(s). Safariland warrants that its ballistic panels shall be free from defects and faulty workmanship and will perform in accordance with used vest testing protocols. Additionally, Safariland will provide immediate notification to the NASPO/ ValuePoint Contract Administrator of any recall notices, warranty replacements, or safety notices.

Additionally, Safariland offers an eighteen (18) month warranty from the date of delivery and acceptance of its outer shell carrier portion(s) of the body armor system(s). Safariland warrants that its outer carrier shell shall be free from defects and faulty workmanship.

Any specific product information (certification letters, product warranties, ISO certs, etc.) can be provided upon request.

We truly appreciate your interest in our products and we look forward to servicing the needs of your department.

Regards,

Debbie Conley
Vice President, Business Development

Proposal Requirements

General

Safariland, LLC is a manufacturer of body armor products as defined in RFP-NK-15-001. All vests, plates, and helmets manufactured by Safariland, LLC and offered in response to this RFP that are eligible have been found complaint to the applicable NIJ standard and, in the case of products found complaint with NIJ 0101.06, are listed on the CPL. Safariland, LLC shall maintain compliance with all requirements of the Master Agreement resulting from this RFP for the duration of the Master Agreement. In the unlikely event of a recall, warranty event, safety notice, or any applicable notice regarding the status of products being sold under any resulting Master Agreement, Safariland, LLC will notify the Lead State, Participating Entities, and all Purchasing Entities that may be impacted.

Safariland, LLC agrees to acquire and keep in force Worker's Compensation, Commercial General Liability and Automobile insurance coverage from an insurance carrier or carriers licensed to conduct business in each Participating Entity's State at the prescribed levels set forth in Exhibit D, Section 17 of the NASPO ValuePoint Master Agreement Terms and Conditions, and as required by law. A copy of proof of insurance is available upon request.

Safariland, LLC agrees to provide detailed usage reports as prescribed in Exhibit D, Section 27 of the NASPO ValuePoint Master Agreement Terms and Conditions. The person responsible for ensuring this reporting is completed is Jason Brown, Director, Business Development.

Finally, Safariland, LLC certifies that neither we nor any of our principals are presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction (Master Agreement) by any governmental department or agency.

Product Standards

All products offered under this response to RFP-NK-15-001 have been found to be complaint to the relevant NIJ standard and protection level. Please note plates and helmets are worn against the body and those have been tested to the NIJ 0101.06 or NIJ 0101.04/05 standard for Type IIIA, III, or IV for plates and 0106.01 for helmets. Safariland has only tested ballistic shields and blankets per the requirements of 0108.01. NIJ Standard 0108.01 for Ballistic Resistant Protective Materials, which specifically excludes police body armor and ballistic helmets, is applicable to "...materials (that) are used to fabricate portable ballistic shields, such as a ballistic clipboard for use by a police officer; to provide ballistic protection for fixed structures such as critical control rooms or guard stations; and to provide ballistic protection for the occupants of vehicles." Additionally, as clarification, please note that the Special Threat trauma plates listed on Attachment E are not tested to the 0108.01 standard. They are tested against a modified NIJ 0101.06 protocol which does not necessarily correspond to the specific threat types listed in Attachment E (III and IV). Safariland's trauma plates are "special" threat plates which have been

tested against rounds beyond those covered by the listed threat type. Also please note that type III testing under NIJ 0101.06 and 0101.04/.05 require six (6) shots from the specified threat to be found compliant and we do not believe that this is practical with plates smaller than 10" x 12".

Product Categories

Safariland, LLC produces and offers products in all Categories listed in section 4.5 in the Scope of Work. These products are categorized in the accompanying price list under the appropriate protection level.

Product Specifications

All products produced by Safariland, LLC are new and unused and do not contain re-used or re-purposed components. All body armor products are constructed identically to the original model tested and comply with NIJ standard with which it was found to be compliant. All materials in all body armor manufactured by Safariland contain the same materials as reported to the NIJ. All Safariland soft armor is made to order for individual officers, whom are measured by trained staff in accordance with Safariland requirements, and not a modified "off-the-shelf" product. All Safariland soft armor products have been found to comply with NIJ sizes C1 – C5. All Safariland armor is labeled in accordance to NIJ labeling requirements under the appropriate standard and includes a space for entering individual agency or officer information, basic care and maintenance instructions, size information, and unique serial numbering. All Safariland armor is designated a unique serial number which is stored in an easily accessible Serial Tracker database. Finally, all ballistic components manufactured by Safariland, LLC come with a five (5) year manufacturer's warranty. This warranty period will begin after delivery and acceptance by the purchasing entity. Copies of specific warranties are available upon request.

All body armor carriers produced by Safariland include fasteners that are the same color as the carriers unless a deviation is requested by the agency. Additionally, all carriers produced by Safariland that include the option of an additional trauma plate include a pocket that is permanently secured to the carrier on both sides and the bottom. Finally, all Safariland, LLC carriers purchased under the contract resulting from this proposal will come with an eighteen (18) month warranty. This warranty period will begin after delivery and acceptance by the purchasing entity. Copies of specific warranties are available upon request.

Customer Service

Safariland considers this a key contract and our corporate leaders are fully engaged and support the execution of this contract. Dave DeHond will be responsible for contract administration. He reports directly to our General Counsel, Julio Salvador, who is also a company officer as Safariland's Corporate Secretary.

Jason Brown, Director of Business Development, will ensure that reporting is completed and submitted in a timely manner. Jason's department currently manages the reporting for numerous contracts and has a resource dedicated solely to the production of these reports.

Safariland's Customer Service department is open M-F 8:00AM EST- 7:30PM EST and is staffed with 6-20 representatives depending on the time of day. We have capability of providing a dedicated Account Specialist (Senior-level CSR) to a given customer or contract if needed.

Additionally, Safariland has a centralized customer service email addresses (customer@bodyarmor@safariland.com) where customer discrepancies, returns and complaints, orders, product technical questions, or any other customer service questions/issues can be sent. We then use Salesforce.com to create a "case" for each of these inquiries. We have reason codes assigned to any returns, complaints or discrepancies in our system and can run a report at any time detailing this information. Customer Service Management also monitors each case to ensure timely and appropriate resolution.

Finally, Safariland has the largest distribution network of ballistic armor in the United States. We have over 105 distributors nationwide in every state that allow us to service a contract of this size and scope. Additionally, we have a directly employed sales staff of twenty-six (26) professionals that allow us to provide contract support nationwide.

Ordering and Invoicing

All costs associated with sizing, measurement, and final fitting are included in prices listed on the attached price list and can be scheduled at the convenience of the purchasing entity. All orders under this contract shall be delivered within sixty (60) calendar days after receipt of order by Safariland. In the unlikely event that and shipped product was improperly fitted initially, Safariland will refit or replace the product within thirty (30) calendar days of notification the fit issue. Finally, all Safariland invoices comply with the requirements listed in section 4.8.6 of the RFP.

Packaging and Delivery

All Safariland products are shipped in a manner to ensure delivery in an undamaged condition. All packages are labeled in accordance to section 4.9.2 of the RFP. All product prices listed are FOB Destination, freight prepaid, for standard delivery. Additional costs may result in requests for expedited delivery depending on individual circumstances.

Recycling Program

Details of Safariland, LLC's armor recycling program can be found under Section 4, Tab 4 per the RFP requirements.

Recycling Program

Safariland LLC's disposal of body armor vests and other aramid personal protection textiles are contracted to Fiber Brokers International (<http://www.fiberbrokers.com/>). Agencies may deliver used body labelled for disposal to Safariland LLC Customer Care which will document the agency name, address, date of removal, and number of vests destroyed. Following documentation, transport of the vests will be arranged to the ISO 14000 verified recycling facility where the products are processed and rendered unusable in ballistic protection applications. A certificate of destruction is then issued documenting the disposal of the body armor.

Process

- 1) Agencies may turn in body armor for disposal by contacting our Customer Care Department at 800-347-1200 and requesting an RMA number.
- 2) Safariland LLC or an Authorized Service center may pick-up, arrange for transport by a third party or accept vests for destruction once an RMA number has been issued.
- 3) Vests will be transported to Fiber Brokers International.
- 4) Vests will be processed in a recycling facility and returned to the marketplace in non-ballistic related post-consumer products such as gloves, brake pads, boat ropes, tire treads, etc. Uses for these aramid materials continue to be explored and developed as research expands in the recycling industry.

Participation in this End-of-Life management program is offered at no charge under this contract.

Safariland Warranty Policy and Procedures

Below is the procedure for requesting a warranty replacement for armor with Safariland. Attached to this document for your convenience is standard Safariland warranty for armor and a Body Armor Alterations/Return Form.

Warranty Procedure

- 1) The customer should call our Customer Service Department to request a return or alteration. This number is 1-800-347-1200.
- 2) Safariland Customer Service will send the customer a Body Armor Alterations/Return Form.
- 3) The customer completes the form and then returns it to Safariland Customer Service.
- 4) Customer Service reviews the details of the requested return and if it falls within the Safariland Warranty Policy the Customer Service Representative will issue a RMA for the armor and then place a replacement order.

INSTRUCTIONS FOR MARKET BASKET ITEMS:

1. Offeror must provide information for at least one of the Market Basket Product Categories.
2. Offeror must fill in Column C, D, E, J and J for all Market Basket Product Categories they are providing information for.
3. Offeror should submit lowest customer price point for the Market Basket Product Category.
4. Offeror cannot submit pricing or information for Product Categories not listed in the Market Basket.
5. Offeror must submit ALL required information.

INSTRUCTIONS FOR NON-MARKET BASKET ITEMS

1. Offeror is not required to provide information for any of the Non-Market Basket Items.
2. Offeror can provide information for any or all of the Non-Market Basket Items.
3. Offeror must fill out Column K, which indicates what the minimum discount % from MSRP is that they will provide for that Product. Note: If a larger discount is offered for a Ballistic K-9 Vest, than it is for a Stab K-9 Vest, then Offeror should list what the discount is for the Stab K-9 Vest. This principal needs to apply to all Product Categories listed in the Non-Market Basket.
4. Offeror cannot submit pricing or information for Product Categories not listed in the Non-Market Basket Items.
5. If Offeror does not provide any information in Column K, then they will not be able to provide that Product Category on their Contract, should they be offered an Award.
6. Column K can state "0%" if no discount is offered for that Product Category.
