

Bangle Size Guide

To determine your bangle size, print this page at 100% or full scale. Make sure the “Scale to fit” option is unchecked in the print dialogue box. To ensure this has been printed properly, use a ruler to measure one of the samples below. They should measure 2 inches or 20 millimeters, respectively.

1. Select a bangle you already own
2. Align your bangle with the circle below that mostly closely matches in size. The inner edge of your bangle should align with the outer edge of the circle.
3. If your bangle appears to be between two sizes, we suggest you choose the larger size
