## **ZoomCare Introduces the Personal Health Passport Program**

ZoomCare, creator of Health Care on Demand, recently announced the availability of the Personal Health Passport powered by ZoomCare, the simplest, most seamless and price transparent way for Portland area health care consumers to enjoy state-of-the-art, neighborhood-based, everyday health care and tightly integrated access to advanced laboratory and imaging services through a collaboration between ZoomCare and Legacy Health, debuting at Legacy Meridian Park Medical Center in Tualatin, OR.

"Our customers have been telling us that they love the ZoomCare experience but don't want it to end when they walk out our door. The ZoomCare Passport program lets our customer take the ZoomCare experience with them. Through our new relationship with Legacy Health, our customers have simple access to advanced laboratory and imaging services seven days a week, price transparency and seamless access to their results," says ZoomCare co-founder David Sanders, M.D.

"We are pleased that Legacy Meridian Park Medical Center is partnering with ZoomCare to extend its patient services," says Allyson Anderson, Chief Administrative Officer, Legacy Meridian Park Medical Center. "Passport by ZoomCare is another example of how ZoomCare is developing new and innovative ways to make quality health care more accessible and provide additional services to its patients by teaming up with Legacy Health."

The ZoomCare passport offers four new features: access to advanced laboratory and imaging services seven days a week, 12 hours a day on weekdays and eight hours a day on weekends; a seamless customer experience between neighborhood clinics and test centers; and transparent pricing and faster results reporting for ZoomCare customers.

With the introduction of this new program, Legacy Meridian Park Medical Center enables ZoomCare patients to have access seven days a week, 8 a.m. to 8 p.m. on weekdays and 9 a.m. to 5 p.m. on weekends.

In addition to expanded access, ZoomCare Passport provides price transparency for advanced laboratory and imaging services, a core tenet of the ZoomCare philosophy. ZoomCare will provide its customers with estimated prices of advanced laboratory and imaging costs up front.

Further, ZoomCare and Legacy Health have developed new materials and training to ensure a seamless customer experience, from neighborhood clinic to test center. ZoomCare will be able to offer its customers faster results online, as well as by phone.
